Letter to Shareholders

We continue to focus on delivering superior customer experience, improving our business processes and managing our costs, as well as investing for future growth.

The evolution and convergence of technologies have blurred the lines that once separated telecommunications, media and information technology companies.

The emerging digital economy is creating social and economic value to society and end-users, even as it generates new risks and challenges, as well as opportunities, for other stakeholders such as governments and commercial participants.

Nowhere is this more apparent than how OTT (Over-the-top) content providers, offering a large library of on-demand content at low monthly subscription, are impacting viewership habits. Companies such as Netflix from the United States and Viu from Hong Kong, which have launched services here, are challenging the traditional pay TV model, unbundling content from broadband access and further levelling the playing field.

At M1, we never stand still. To remain relevant and capture growth in the digital economy, we continue to focus on delivering superior customer experience, improving our business processes and managing our costs,

as well as investing for future growth. This singular focus has led our mobile network to be recognised in Infocomm Development Authority of Singapore's (IDA) network survey as delivering the best 4G experience¹. M1 was also honoured with the Award of Excellence in IT sector at the Singapore Productivity Awards 2015², and further extended our lead at consulting firm Frost & Sullivan's 2015 Customer Experience study.

FINANCIAL HIGHLIGHTS

For 2015, M1 reported a creditable set of financial results. Net profit after tax for the full year grew 1.5% to S\$178.5 million. Operating revenue increased 7.5% to S\$1,157.2 million, on higher handset sales, while service revenue declined 1.1% to S\$822.3 million due to lower international call services revenue.

Mobile data usage continued to grow, with revenue from mobile data for the full year increasing 10.7 percentage points year-on-year to 46.3% of service revenue. Average smartphone data usage per postpaid customer grew to 3.3GB per month in the fourth

quarter of 2015, up from 3.0GB per month a year ago. Fixed services revenue grew 21.7% to S\$85.9 million and accounted for 10.4% of service revenue. The growth was driven by an enlarged customer base and expanded suite of corporate solutions.

The Group's balance sheet remained healthy, with net debt-to-EBITDA at 1.0 time as at end-2015.

PERFORMANCE HIGHLIGHTS

During 2015, we grew our total customer base to 2.06 million.

Postpaid customer base increased 46,000 year-on-year to 1.20 million, and the number of customers on tiered data plans grew six percentage points to 74% as at end-2015, of which 21% exceeded their data bundles.

Our mySIM plans, launched in July 2015, offered the best value plans for customers who prefer to buy their own smartphones and the flexibility to decide how often they wish to upgrade them. These plans have been well-received.

AVERAGE SMARTPHONE DATA USAGE PER POSTPAID CUSTOMER PER MONTH

To promote usage of our roaming services, we introduced the unique M1 Data Passport service. The service, which enables our customers to use their data bundles across 29 overseas destinations including Australia, Malaysia, Japan, the United States and popular European countries, helped drive a 45% increase in data roaming users year-on-year.

Prepaid customer base increased 30,000 to 733,000, driven by various marketing campaigns, promotions and new offerings such as the Super Data top up which offers attractive data bundle to cater to this segment's increased data usage. We have also enabled our prepaid customers to use their data bundles in Malaysia and Indonesia at no additional charge, giving them greater convenience in using our prepaid cards when they travel to those countries.

Fibre customer base increased 25,000 to 128,000, as we added new customers in both the residential and corporate segments. During the year, we made available Singapore's best value 1Gbps and 200Mbps residential fibre broadband plans, at highly attractive rates. The corporate segment continues to be a key growth area. In 2015, corporate customers made up 11% of fixed customer base and contributed to 48% of fixed services revenue. During the year, we expanded our suite of GPON (Gigabit Passive Optical Network) fibre connectivity services with speeds of up to 10Gbps. With the appointment as NetLink Trust's key corporate subcontractor to install fibre optic connectivity, we are better able to manage the end-to-end provisioning process for our customers and further improve service experience.

OUTLOOK

Amidst a weakness in global economic growth arising from a moderation of growth in China, low oil prices and higher interest rates, there are also new opportunities in the digital economy.

Over the years, we have laid the groundwork in our people, technology, networks and financial strength, and we will leverage on these to tap on these new opportunities.

Products and services are increasingly incorporating embedded sensors and connectivity, and we will continue to develop and harness our capability in data analytics, as well as leverage on our recently introduced M2M (Machine-to-Machine) Connect Platform to deliver smart solutions for our customers.

Mobile data and fixed services will continue to drive growth for M1 in 2016, and we will continually invest in our mobile and fixed networks to enhance usage experience and grow our portfolio of innovative products and services to meet customer needs. In collaboration with Huawei, we successfully achieved Southeast Asia's fastest combined mobile upload and download speeds in a lab trial, with peak download speeds of more than 1Gbps and peak upload speeds in excess of 130Mbps.

For fixed services, we are establishing a track record of securing new customers in the government and corporate sectors with our extensive ultra-high speed connectivity solutions, as well as cloud-based data centre and managed services. We will continue to build on our capabilities to grow in this space.

Letter to Shareholders

With the collective effort of all stakeholders, we have a strong platform to build on for long term growth and value creation for all.

CORPORATE SOCIAL RESPONSIBILITY

M1 is committed to responsible business practices and making a positive impact on our community and operating environment.

We recognise the positive impact that communications technology can have on improving people's lives and livelihoods, especially for the underprivileged and underserved segments. M1 was the first operator to make available a customised service plan for People with Disabilities. In 2014, we were appointed by the Media Development Authority of Singapore to help low-income households enjoy free access to digital TV, and in 2015, we are proud to be appointed by the IDA to be their Home Access Programme partner, to deliver high-speed broadband to Singapore's low-income households. We believe these initiatives will help narrow Singapore's digital divide and enable even more people to enjoy the benefits that technology brings.

M1 has been a keen supporter of the arts since commercial launch in 1997. Through our support of events such as M1 Singapore Fringe Festival and performance groups such as T.H.E Dance Company and Frontier Danceland, we have established a strong reputation as a champion for Singapore arts and culture.

In recognition of our long-standing support for Singapore's arts scene, M1 was presented with the special SG50 Patron of the Arts award by the National Arts Council in 2015.

Through our annual M1 Charity Golf and Charity Carnival events, we raised more than S\$350,000 for our adopted charities Beyond Social Services, Brahm Centre, the Children-At-Risk Empowerment Association, and the M1 Students Support Fund. The Fund, launched in February 2015, provides supplementary support to school-going children from low income families.

In marking Singapore's 50th birthday, we provided our customers free calls, SMS/MMS messages and mobile data for local usage, over the National Day weekend, enabling our customers to express their joy and wishes for our nation with each other freely.

DISTRIBUTION TO SHAREHOLDERS

M1 is committed to maintain a sustainable dividend policy that will enhance long-term shareholder value. For 2015, the Board of Directors has proposed a final dividend of 8.3 cents, bringing total dividends declared to 15.3 cents, representing a payout of 80% of our full-year net profit after tax.

In determining the dividend payout, the Board of Directors took into

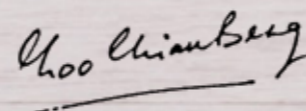

consideration the Company's cash flows, financial leverage, investment requirements and resources available to pursue new business opportunities which may arise in the near or medium term, as well as economic outlook.

A NOTE OF THANKS

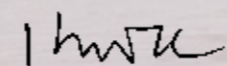

We would like to thank our customers, business partners, shareholders, M1 staff and Board of Directors for their continued support in 2015.

In particular, we would like to remember our late Independent Director, Mr Roger Barlow, who passed away in June 2015. He was the longest serving independent director on the Board and also the previous Chairman of the Remuneration Committee and member of the Nominating Committee. We are deeply grateful for Mr Barlow's invaluable contributions and insights from his extensive experience in the telecommunications industry.

We continue to operate in a fast-moving and ever-changing industry, filled with challenges and opportunities. With the collective effort of all stakeholders, we have a strong platform to build on for long term growth and value creation for all.

COMPANY OVERVIEW

M1 is Singapore's most vibrant and dynamic communications company, providing mobile and fixed services to more than 2 million customers. Since the launch of commercial services in 1997, M1 achieved many firsts, including the first operator to offer nationwide 4G service, as well as ultra high-speed fixed broadband, fixed voice and other services on the Next Generation Nationwide Broadband Network (NGNBN). With a continual focus on network quality, customer service, value and innovation, M1's mission is to link anyone and anything; anytime, anywhere.

The Group holds Facilities-Based Operator and Services-Based Operator licences issued by the Infocomm Development Authority of Singapore (IDA), for the provision of telecommunication systems and services. M1 also has a Telecommunication Dealer's Class Licence, for the import and sale of telecommunication equipment, as well as licences issued by the Media Development Authority of Singapore, for the provision of Internet content.

M1 operates nationwide 4G/LTE (Long Term Evolution) Advanced, 3G/High Speed Packet Access (HSPA) and 2G mobile networks, capable of download speeds of up to 300Mbps and upload speeds of up to 150Mbps. Through these networks, we provide customers with a wide range of data, voice and value-added postpaid and prepaid mobile services. To cater to our customers' varied needs, we offer service plans with a choice of data and voice bundles that they can take up with or without a device.

We make available to our mobile and fixed-line customers International Direct Dial (IDD) services through the 002 and 021 prefixes, as well as a International Calling Card service using prefix 1818. We also trade wholesale voice minutes with other international and local service providers, as well as provide dark fibre services to carriers and data centres. Since September 2010, M1 has been offering residential customers a range of fibre broadband services with speeds of up to 1Gbps, including fixed voice and other value-added services.

Operating Review

The postpaid mobile segment continues to be the key contributor to our revenue.

M1 offers an extensive suite of mobile and fixed services, including connectivity solutions of up to 10Gbps, managed services, cloud solutions, Machine-to-Machine (M2M) and data centre services, to the corporate segment. We have a dedicated and highly committed team of corporate account managers, as well as a technical team that provides round-the-clock support on provisioning and technical-related matters.

In the course of our history, we have achieved the following milestones:

- Commercial launch of mobile services in April 1997
- Achieved 10% mobile market share within one month of launch, and profitability in the first full year of operations in 1998
- Listed on the Singapore Exchange in December 2002
- First operator in Singapore to launch:
 - 3G mobile services commercially in February 2005
 - Nationwide mobile broadband services in December 2006
 - Fibre broadband services on the NGNBN commercially in September 2010
 - Mobile broadband service on our 4G network in June 2011
 - Nationwide 4G service in September 2012

- Singapore's fastest corporate broadband service on the NGNBN in May 2014
- Nationwide LTE-Advanced service in December 2014

For 2015, M1's operating revenue increased 7.5% year-on-year to S\$1,157.2 million, on higher handset sales. Service revenue decreased 1.1% to S\$822.3 million, due to lower international call services revenue. Mobile data revenue continued to grow, increasing 10.7 percentage points year-on-year to 46.3% of service revenue for 2015.

Net profit after tax increased 1.5% year-on-year to S\$178.5 million, with margin on service revenue increasing 0.5 percentage point to 21.7%. Free cash flow increased 13.4% to S\$105.7 million and net debt-to-EBITDA remained healthy at 1.0 time.

As at end-2015, M1 had a total of 1,928,000 mobile customers, comprising 1,195,000 postpaid and 733,000 prepaid customers. During the year, we grew our fibre customer base by 24.3% to 128,000.

MARKET DEVELOPMENTS

According to IDA's latest reported statistics, Singapore's market penetration rate was 148.4% as at end-December 2015, compared to 148.0% as at end-2014. As at end-December 2015, there were a total of 8.2 million mobile subscriptions, comprising 59.0% postpaid and 41.0% prepaid subscriptions.

In the fixed broadband segment, the residential broadband penetration rate was 102.8% as at end-December 2015. From January to December 2015, the total fibre market including both residential and corporate subscriptions, increased 31.7% to 932,300. Over the same period, cable and digital subscription line subscriptions declined 23.2% to 387,100, and 37.7% to 147,200, respectively.

POSTPAID MOBILE

The postpaid mobile segment continues to be the key contributor to our revenue. This segment made up 62.0% of our total mobile customer base as at end-2015 and contributed 88.5% of our 2015 mobile telecommunications revenue. During the year, we added 46,000 postpaid customers to bring our postpaid base to 1,195,000, representing a market share of 24.6% as at end-December 2015.

Driven by faster networks and devices, mobile data usage grew in 2015. Average data usage per smartphone customer grew to 3.3GB per month in the fourth quarter of 2015, up from 3.0GB per month a year ago. As at end-2015, 74% of our postpaid customers had migrated to tiered data plans, compared to 68% a year ago.

Through the year, we continued to enhance and expand our products and services.

In February 2015, M1 entered into a partnership with the Maritime and Port Authority of Singapore to help the maritime community leverage on mobile technology to enhance productivity and crew welfare, through Singapore's first Corporate Data Pooling Plans. The plans, which offer corporate customers the flexibility of a shared mobile data bundle of up to 100GB, can be used among authorised employees through 4G dongles or handsets, and are available to ships visiting Singapore and local harbour craft. The plans were also extended to other corporate customers during the year.

Through the year, we continued to enhance and expand our products and services.

Operating Review

To provide better value for customers who prefer to use their existing smartphones, we introduced attractive SIM-only plans, known as mySIM, in July 2015. The new mySIM postpaid plans are available from S\$30 a month for a 5GB data bundle, 300 minutes of calls, and 1,000 SMS/MMS, to S\$125 for a 20GB data bundle with unlimited calls and SMS/MMS, with a 12-month contract. Plans with no contract are also available.

During the same month, we also made available the unique M1 Data Passport service, enabling our customers to use their local data bundles overseas. As at end-2015, M1 Data Passport has been expanded to 29 destinations worldwide, including Malaysia, Australia, Japan, Hong Kong, the United States and popular European countries. To enable customers to have continual connectivity when they travel, M1 launched an unlimited in-flight data roaming service in December 2015. The two services deliver convenience and value to both business and leisure travellers, and give M1 customers the peace of mind to use their smart devices overseas and on flights the way they do at home.

FIBRE CUSTOMERS (END-2015)

128,000

+25,000

Through the year, we continued to work with device manufacturers to make available their new handsets, tablets, wearables and accessories to our customers in a timely manner. Key models launched in 2015 included the Apple Watch, iPad Pro, iPhone 6S, iPhone 6S+, LG G4, LG G4 Dual LTE, Samsung Galaxy Note 5, Samsung Galaxy S6 Edge+, Samsung Gear S2, Xiaomi Mi 4i and Redmi Note 2.

PREPAID MOBILE

M1's prepaid mobile service is mainly used by the migrant worker community, resident customers including parents who want to manage their children's mobile usage, and transient visitors to Singapore such as business travellers and tourists.

In 2015, we grew our prepaid customer base by 30,000 to 733,000, driven by various marketing campaigns, promotions and new offerings.

During the year, we enabled our prepaid customers to use their existing local data bundles in Malaysia and Indonesia. The data roaming feature, available on M1's partner networks Celcom in Malaysia and XL Axiata in Indonesia, offers roaming customers the convenience of using their existing mobile lines when travelling to neighbouring countries.

We also launched Super Data, Singapore's best-value prepaid top up. The S\$30 Super Data top-up offers prepaid customers a 2GB data bundle, and S\$100 worth of local calls and SMS messages, valid for 30 days, to cater to our customers' increased mobile data usage.

To provide greater ease of use and a hassle-free top-up experience for our customers, we introduced electronic top-up service at more than 400 Cheers and 7-Eleven outlets island-wide. During the year, we worked with DBS to launch Prepaid mobile top-up at DBS/POSB iBanking, SMS Banking and PayLah! App to enhance the convenience of topping up for DBS/POSB customers. Our prepaid top-up is also now available electronically through SingPost SAM web service and mobile app.

A new service, M Send, was launched in December 2015, to enable our prepaid customers to securely transfer prepaid credits to another prepaid mobile account overseas. As at end-December 2015, the service offers prepaid credits transfer to ten countries, to make it easier for our customers to stay connected with their family and friends who are overseas.

In extending our reach to the migrant worker segment, we organised and participated in outreach events at dormitories and recreation centres across Singapore. In August 2015, we set up multiple movie screening and celebratory carnivals in various workers' dormitories island-wide during the SG50 celebrations, to include foreign workers in our National Day festivities. In November 2015, we sponsored Deepavali carnivals at recreation centres across Singapore to celebrate the Festival

In the corporate space, we continued to drive growth with our extensive range of connectivity solutions, such as Singapore's first 2Gbps to 10Gbps GPON (Gigabit Passive Optical Network) fibre services at highly competitive prices.

of Light with our Indian customers. We also participated in International Migrants' Day celebration through a new collaboration with Migrant Workers' Centre, where we educated migrant workers on data usage and promoted our new Super Data top-up in their native languages. In closing the year, we held a Christmas party at Fort Canning for our Filipino customers.

FIXED SERVICES

Singapore's home fibre penetration rate continued to grow to over 70%, as at end-2015. During the year, we added 25,000 customers to bring our fibre customer base to 128,000, driven by our competitive service plans and complementary services such as Home Fixed Voice and 1GB Mobile Broadband.

In April 2015, the IDA announced the appointment of M1 as its Home Access programme partner, to deliver high speed fibre broadband Internet access to low-income households with at least one Singapore citizen. Through the programme, eligible households are able to enjoy M1's 100Mbps fibre broadband service, and will also receive an Internet router and a 7-inch Alcatel tablet, for only S\$6 a month.

In the corporate space, we continued to drive growth with our extensive range of connectivity solutions, such as Singapore's first 2Gbps to 10Gbps GPON (Gigabit Passive Optical Network) fibre services at highly competitive prices, as well as our expanded suite of cloud-based managed services. During the year, M1 was appointed by NetLink Trust, which owns Singapore's NGNBN, as a key subcontractor to install fibre optic connectivity for M1's corporate customers. With the appointment, M1 will install fibre optic cables, termination points, and undertake all other necessary installation work to enable ultra-high speed connectivity from a non-residential building's main distribution frame room to the corporate customers' premise. This further streamlines the fibre provisioning process and enhances our ability to deliver a better service experience to our corporate customers.

PRODUCTS AND SERVICES

M1's innovative and exciting products and services launched in 2015 include:

- **M1 mPOS:** Launched in collaboration with CIMB, MasterCard and Wirecard in June 2015, M1 mPOS (mobile Point of Sale) solution transforms smartphones and tablets into credit, debit and prepaid card terminals. Designed to meet the needs of traditionally cash-based small businesses, startups, and "on-the-go" enterprises, such as push-cart vendors and small cafes, mPOS allows these merchants to offer their customers the convenience of card payment, without the need to purchase, set up, and maintain a traditional POS terminal;
- **Data roaming services:** M1 made available several innovative data roaming services for the benefit of customers who travel overseas. Launched in July 2015, the M1 Data Passport value-added service enables our postpaid customers to use their local data bundles in six overseas destinations. This was expanded to a total of 29 destinations, including Australia, Malaysia, Japan, the United States and other popular Asian and European destinations as at end-2015. In October 2015, M1 made available data roaming to Malaysia and Indonesia to its prepaid customers, at no additional charge. In December 2015, M1 launched unlimited in-flight data roaming services on 18 airlines including Singapore Airlines, British Airways and Qatar Airways, through our preferred in-flight network partner, OnAir;

Delighting customers through service excellence across all touch points remained our focus during 2015.

- **VSafe:** The VSafe mobile application, made available in August 2015, automatically helps authorised recipients keep track of the whereabouts of their loved ones, especially a child or elderly family member, via their phones. The geofencing tool, at S\$2.99 per month, will alert the authorised recipient of the tracked user's activity within a selected map location, and the loved one can also use VSafe to send a distress signal to all authorised recipients;
- **Corporate GPON fibre connectivity services:** M1 launched Singapore's first 2Gbps to 10Gbps GPON (Gigabit Passive Optical Network) fibre services for corporate customers in August 2015. Together with GPON services of up to 1Gbps and 10Gbps Active Ethernet service, Singapore's fastest fibre service on the NGNBN, M1 now offers Singapore's most extensive range of corporate connectivity services;
- **M1 M2M Connect:** Launched in October 2015, the M1 M2M Connect platform enables corporate customers to access, track and manage all their connected devices conveniently, from any authorised computer or mobile phone. They will also be able to set and change business rules, perform device troubleshooting and obtain detailed reporting of all M2M

activities. Additionally, M1 has partnered multiple technology providers, including Aerolion Technologies, Napier Healthcare Solutions, Quantum Inventions, and Parametric Technology, to deliver a wide range of smart M2M solutions for transport, retail, healthcare and security sectors;

- **Smart Lives smart home programme:** In partnership with Keppel Land Limited, the Smart Lives programme, announced in December 2015, will enable 30 households at the Luxurie condominium in Sengkang to enjoy a suite of smart healthcare and home solutions. Through the programme, M1 and Keppel Land will gather feedback to identify additional smart solutions to better meet customers' needs.

SALES AND DISTRIBUTION

Our 14 M1 Shop outlets island-wide provide customers with convenient access to our products and services. We also partner exclusive distributors such as Arrow Communications, Big Box Singapore, Era International Network, and Handphone Shop, and conduct regular roadshows at high traffic locations such as shopping malls, migrant worker dormitories, and major consumer technology events, to further augment our reach and accessibility.

M1's online pre-order and collection system, first launched in 2014 and further enhanced in 2015, has continued to help deliver a better service experience to our customers by enabling them to select their preferred model, make payment and then choose their preferred collection location or have it delivered to them. This system, the Singapore communications industry's most comprehensive handset pre-order system, allows customers to conveniently pick up their handsets from any M1 Shop and reducing collection time to as little as ten minutes. This has enhanced M1's productivity and enabled us to deliver more handsets to our customers, especially during the launch of popular models.

BRAND

M1, which first introduced Singaporeans to the captivating and fascinating world of Cirque du Soleil with Saltibanco in 2000, was the presenting sponsor for TOTEM, Cirque du Soleil's new production. The production, which traces the fascinating journey of the human species from its original amphibian state to its ultimate desire to fly, was staged at its trademark blue-and-yellow big top at Bayfront Avenue next to Marina Bay Sands, from October to December 2015. M1 customers enjoyed a range of benefits and activities, including priority booking, ticket discounts, special souvenirs and premiums, and M1 Shops were also fitted out to reflect the TOTEM theme.

In June 2015, a new brand campaign, "Making Moments Special", exploring the role M1's products and services play in customers' lives, was launched on TV, print, online and outdoor advertising channels. Social media customer engagement programmes, conducted during the new brand campaign, festive periods and M1's 18th anniversary celebrations, further helped build preference for the brand, as well as our products and services.

In celebration of the nation's 50th birthday, M1 customers were treated to free local calls, SMS/MMS messages and data, during the Jubilee Weekend in August 2015.

Our marketing and branding efforts were recognised through various awards in 2015, including the Straits Times Print Ad of the Month in June 2015 for our Brand print ad, as well as the Straits Times and Lianhe Zaobao Print Ad of the month in August 2015 for the SG50 campaign. For our brand building efforts, we were awarded the Most Improved Local Brand at the 11th Singapore Media Awards in August 2015.

CUSTOMER EXPERIENCE

Delighting customers through service excellence across all touch points remained our focus during 2015.

During the year, we completed a major upgrade of our customer care system. The upgraded system enables us to meet the current and future needs of our growing customer base, as well as provides our front-line staff a comprehensive, unified view of all customers across our business lines. The upgrade has also improved the operational efficiency at our retail outlets, as well as in service provisioning, by up to 35%. Additionally, by capturing all customer transactions and consolidating this data into a single system, we are able to serve our customers more effectively, and use data analytics to determine and better address their preferences.

Operating Review

To give our customers more peace of mind in using mobile data, we launched a new feature to alert customers when they are approaching their data bundle cap.

Our efforts were recognised through an Award of Excellence in IT sector at the prestigious Singapore Productivity Awards 2015, for productivity efforts that successfully led to a reduction in customer waiting time. We also extended our leadership at the second annual Frost & Sullivan Customer Experience study, with four of six recognitions, for “Excellence In Customer Experience - Overall Telecommunication Services”, “Excellence In Customer Experience - In-Store Channel”, “Excellence In Customer Experience - Contact Centre Experience”, and “Excellence In Customer Experience - Mobile”.

M1 employees’ positive engagement with customers were further recognised at the annual Excellent Service Awards (EXSA) in 2015, with 4 Star, 27 Gold, and 68 Silver awards, compared to one Star, 16 Gold and 58 Silver awards in the year before. EXSA, a national award that recognises individuals for their outstanding service, is managed by seven industry bodies and supported by SPRING Singapore. During the year, our Changi Airport Terminal 3 retail outlet received the Changi Airport Group’s Outstanding Outlet Award, for the 4th consecutive year.

NETWORKS

M1 continues to invest in networks and technology to improve our capabilities and capacity, and enhance customer experience. Since inception, we have invested more than S\$1.8 billion into our fixed and mobile networks and this has enabled our customers to consistently enjoy the latest technology developments and next-generation products and services, often ahead of competition. In 2015, our efforts were recognised in IDA’s network survey for delivering the best 4G experience.

Key network initiatives in 2015 include:

- 4G Voice:** Following extensive testing, 4G Voice or Voice over LTE (VoLTE) calls were made available in April 2015 to customers on 4G plans at no additional charge. Through the higher bandwidth available on M1’s LTE-Advanced network, VoLTE technology allows calls to be connected faster and offers higher quality voice communications, compared to standard voice calls. By working seamlessly between M1’s 3G and 4G networks, 4G Voice also delivers uninterrupted conversation to customers, while on the move;
- Small cell technology:** Small cell technology was deployed to enhance our customers’ mobile data experience at high traffic indoor locations, such as Paragon and Nex shopping malls, and Jurong East Regional Library. Small cell deployments are also underway at Orchard and Raffles Place MRT stations;

- 4G indoor enhancement with MIMO technology:** We have rolled out MIMO (multiple-input and multiple-output) technology for our mobile infrastructure in five commercial buildings to boost indoor 4G speeds and are currently deploying the technology to more buildings;
- Software-defined networking data centre:** We collaborated with VMware, Palo Alto Networks and Huawei to deploy a next-generation software-defined networking (SDN) technology proof of concept in our cloud-based data centre. SDN technology will allow us to have a comprehensive unified view of our network and effective control over each network element through a central management tool. This will enable us to develop and introduce new services faster and with increased flexibility, to better serve our corporate customers;
- Fibre network expansion:** We continued to expand our fibre infrastructure to further extend our reach to corporate customers and increase our mobile backhaul self-provision. During the year, we completed a new Southern core fibre ring and are extending fibre to commercial buildings in Shenton Way and Biopolis;
- 4.5G trial:** Through a lab trial conducted with our mobile network vendor Huawei, we successfully achieved peak download speeds in excess of 1Gbps, and peak upload speeds of more than 130Mbps, positioning us well to meet customers’ growing data requirements in the future.

Mr Koh joined M1 in August 1997 and has held various positions in Finance, Sales and Marketing, Information Systems and Engineering. In Mr Koh's most recent appointment as the Director of Procurement, he leads and is responsible for a diverse portfolio, including the centralised Procurement function, SIM and Number Management, as well as Facilities Management.

Prior to joining M1, Mr Koh was with the Defence Science and Technology Agency responsible for the planning, implementation and management of projects. Mr Koh was also formerly the Vice President of Procurement with Prudential Assurance Company Singapore (Pte) Ltd where he was instrumental in centralising the Procurement function and driving organisational change to ensure alignment and acceptance of the new function.

Mr Koh holds a Bachelor of Engineering (Honours) degree from the Nanyang Technological University.

TEO WEE SENG
Director, Human Resource

Mr Teo joined M1 in May 2014 and is in charge of the Human Resource department. He has more than 25 years of work experience in human resource, consulting, training and organisation development.

Mr Teo has held various positions in financial institutions, consulting firms, and public sector organisations such as the National Library Board and Public Service Division (Prime Minister's Office). Prior to joining M1, he was the Vice President, Human Resource of Jurong Port Pte Limited.

Mr Teo holds a Bachelor of Social Science (Honours) degree in Economics from the National University of Singapore.

IVAN LIM
Director, Corporate Communications and Investor Relations

Mr Lim joined M1 in September 2002 and has held positions in the Finance and Business Development departments before taking on his current appointment as Head of Corporate Communications & Investor Relations in January 2011.

Prior to joining M1, he was an Investment Analyst for over four years with various companies, including Indosuez WI Carr Securities Limited and OCBC Securities Private Limited.

Mr Lim holds a Bachelor of Science degree in Economics from the National University of Singapore and is a Chartered Financial Analyst.

KWAN WAI LING
General Manager, Management Assurance Services

Ms Kwan joined M1 as Head of Management Assurance Services in June 2014. She has more than 20 years of work experience spanning financial and government sectors in areas such as technology, financial and operational assurances.

Holding various international and local roles with Standard Chartered Bank (Singapore) Limited and the former National Computer Board, Ms Kwan's contributions also extended to methodology development and special reviews of global projects and key initiatives of these organisations.

Ms Kwan has a Masters of Accountancy from Charles Sturt University in Australia and a Bachelor of Science (Computer and Information Sciences) degree from the National University of Singapore. She is also a Certified Public Accountant (Australia).

Corporate Governance

M1 Limited is committed to maintaining a high standard of corporate governance within the Group to protect the interests of its shareholders and enhance long-term shareholder value. This report describes the Company's corporate governance processes and activities with specific reference to the Code of Corporate Governance 2012 (Code) established by the Singapore Corporate Governance Committee and relevant sections of the Listing Manual issued by the Singapore Exchange Securities Trading Limited (SGX-ST).

1 BOARD OF DIRECTORS (Code of Corporate Governance Principles 1, 2, 4, 6, 10 & 11)

The Board of Directors is accountable to the shareholders and oversees the management of the business and affairs of the Group. Key roles of the Board include providing entrepreneurial leadership, approving the Group's objectives and strategic directions; monitoring and reviewing the performance of the Company; approving annual budgets and investment proposals; monitoring the effectiveness of the Company's risk management framework; reviewing management performance and appointing Directors. Material transactions that require Board approval are capital expenditure in excess of S\$5 million and operating expenditure in excess of S\$3 million.

Currently, the Board comprises ten Directors, all of whom are non-executive except for the Chief Executive Officer (CEO), and six of whom are independent. The independent Directors make up 60% of the Board. The Board does not have any alternate Directors. The Board consists of respected individuals from different backgrounds and whose core competencies, qualifications, skills and experience are extensive and complementary. Details of the Directors' academic and professional qualifications and other appointments are set out on pages 40 to 45 of the Annual Report.

To facilitate effective management, certain functions have been delegated to various Board Committees, namely the Nominating Committee, Remuneration Committee, Audit Committee and Risk Committee, each of which has its own written terms of reference. The Board members and Board Committee members are set out below:

Name	Status	Board	Nominating Committee	Remuneration Committee	Audit Committee	Risk Committee

Corporate Governance

1 BOARD OF DIRECTORS (CONT'D)

At least one-third of the Directors retire at the Annual General Meeting (AGM) each year. The dates of initial appointment and last re-election or re-appointment of the Directors are set out below:

Name	Age	Position	Date of Initial Appointment	Date of Last Re-election or Re-appointment
Choo Chiau Beng	68	Chairman & Director	12.01.2015	13.04.2015
Karen Kooi Lee Wah	61	Executive Director	22.04.2009	13.04.2015

Moses Lee Kim Poo	64	Director	01.06.2015	NA
Lionel Lim Chin Teck	59	Director	30.04.2015	NA
Alan Ow Soon Sian	68	Director	16.02.2009	07.04.2014

To enable the Board to fulfil its responsibilities, Directors are provided with monthly management financial statements setting out actual against budget, as well as previous year's comparatives and explanations on any material variances. In addition, management provides the Board with financial and operating reports reviewing performance in the most recent quarter, and relevant background or explanatory information required to support the decision-making process on a regular and timely basis. Directors and senior management can securely access and read Board and Board Committee papers prior to and at meetings via tablet devices.

All Directors have separate and independent access to senior management, and to the Company Secretaries whose appointments and removals are decided by the Board. The Company Secretaries administer, attend and prepare minutes of Board and Board Committee meetings, and assist the Chairman in ensuring that Board procedures are followed and reviewed so that the Board functions effectively, and the Company's Constitution and relevant rules and regulations, including requirements of the Companies Act, the Securities and Futures Act and SGX-ST, are complied with. The Company Secretaries also act as the primary channels of communication between the Company and the SGX-ST.

Should Directors, whether as a group or individually, need independent professional advice in the furtherance of their duties, the cost of such professional advice is borne by the Company.

1 BOARD OF DIRECTORS (CONT'D)

Regular quarterly Board meetings are scheduled yearly in advance. Additional meetings are scheduled in between to provide technical updates and to facilitate discussion or deliberations on strategic or compliance issues where necessary. The non-executive Directors meet without the presence of management from time to time. During the year, five Board meetings were held. The Company's Constitution provides for telephonic and videoconference meetings. The number of applicable Board meetings held in 2015, as well as the attendance of every Board member at those meetings applicable to them are as follows:

Director	Number of Applicable Board Meetings Held in 2015	Number of Applicable Board Meetings Attended

Roger Barlow ¹	3	2
Kannan Ramesh ²	2	2

¹ The late Mr Roger Barlow passed away on 14 June 2015

² Mr Kannan Ramesh retired as a Director with effect from 30 April 2015

The late Mr Roger Barlow, previous Chairman of the Remuneration Committee and member of the Nominating Committee, passed away on 14 June 2015. He was the longest serving independent director on the Board since his appointment on 22 May 2002, and he maintained the highest standards of professionalism and governance in the performance of his duties on the Board and board committees. The Company benefited from his invaluable contributions and extensive experience in the telecommunications industry.

For newly-appointed Directors, the Company will send a formal letter of appointment to explain their duties and responsibilities as Directors. All newly appointed Directors undergo a comprehensive orientation programme including management presentations on the businesses, strategic plans and objectives of the Company and its Group, and site visits to the Company's call, data and network operating centres.

2 CHAIRMAN AND CHIEF EXECUTIVE OFFICER (Code of Corporate Governance Principle 3)

Mr Choo Chiau Beng is the Chairman of the Company and Ms Karen Kooi Lee Wah is the CEO. They each perform separate functions to ensure that there is an appropriate balance of authority and responsibilities, and that accountability and independent decision-making are not compromised. The Chairman and the CEO are not related.

Corporate Governance

3 NOMINATING COMMITTEE (NC)

(Code of Corporate Governance Principles 2, 4 & 5)

The NC comprises entirely independent Directors, namely Mr Chow Kok Kee as Chairman, Mr Huang Cheng Eng and Ms Elaine Lee Kia Jong.

The NC, which has written terms of reference approved by the Board, performs the following functions taking into account the relevant principles in the Code and other salient factors:

- (a) Ensure a strong and independent element on the Board, with independent Directors making up at least one-half of the Board;
- (b) Determine the size of the Board which facilitates effective decision making, taking into account the scope and nature of the operations of the Company;
- (c) Determine the composition of the Board to comprise Directors who as a group provide core competencies such as accounting or finance, business or management experience, industry knowledge, strategic planning experience and customer-based experience or knowledge;
- (d) Implement and disclose a formal and transparent process for the appointment of new Directors to the Board;
- (e) Consider, review and recommend to the Board any new Board appointment or re-appointment, whether of executive or non-executive Directors, having regard to the Director's contribution and performance, including, if applicable, as an independent Director;
- (f) Determine annually if a Director is independent; and review the independence of any independent Director who has served on the Board beyond nine years from the date of first appointment, and making the appropriate recommendations to the Board on such Director's independence;
- (g) Decide if a Director is able to and has been adequately carrying out his duties as a Director of the Company, including recommending to the Board the maximum number of listed company board representations and principal commitments which any Director may hold;
- (h) Decide and propose to the Board for approval and implementation a set of objective performance criteria to be applied from year to year for evaluating the performance of the Board, as well as decide and propose to the Board for approval and implementation a process by which the effectiveness of the Board as a whole and the contribution of each Director to the effectiveness of the Board can be assessed;
- (i) Evaluate the effectiveness of the Board as a whole and the contribution of each Director to the effectiveness of the Board in accordance with the assessment process and performance criteria referred to in (h) above;
- (j) Reviewing and recommending to the Board appropriate training and development programmes for the Directors; and
- (k) Other matters (if any) that the NC should consider, review or approve or in respect of which it should take any other action, as set out in the Code.

3 NOMINATING COMMITTEE (NC) (CONT'D)

The number of applicable NC meetings held in 2015 and the attendance of each member at those meetings are as follows:

NC Member	Number of Applicable NC Meetings Held in 2015	Number of Applicable NC Meetings Attended
Chow Kok Kee	6	6
Roger Barlow ¹	4	2
Kannan Ramesh ²	3	3
Huang Cheng Eng ³	3	3
Elaine Lee Kia Jong ⁴	1	1

1 The late Mr Roger Barlow passed away on 14 June 2015

2 Mr Kannan Ramesh retired as a Director with effect from 30 April 2015

3 Mr Huang Cheng Eng was appointed as a Member of the Nominating Committee with effect from 30 April 2015

4 Ms Elaine Lee Kia Jong was appointed as a Member of the Nominating Committee with effect from 17 August 2015

The NC determines on an annual basis the independence of a Director taking guidance from the Code on the definition of an "independent" Director and existence of relevant relationships or circumstances. The NC reviewed the independence of the Directors and arrived at its conclusions regarding each Director as set out in Section 1.

The NC noted that under the Code, the independence of a Director who has served for more than nine years since date of first appointment should be subject to rigorous review, and that the late Mr Roger Barlow had been with the Board for over nine years. The Board concurred with the NC that Mr Barlow had retained strong independent-mindedness in Board and Board Committee functions, notwithstanding his tenure of service, and that Mr Barlow had consistently exercised independent judgement in the best interests of the Company in the discharge of his Director's duties and should be deemed independent.

The NC considers on an on-going basis:

- (a) board renewal and continuity including upcoming retirements and anticipated vacancies;
- (b) current board diversity and expected changes thereto;
- (c) types of Directors and skills needed given the Company's future directions;
- (d) annual evaluation results of Board and Board Committees; and
- (e) feedback from the Directors.

The NC keeps a constant scan for suitable candidates, and assesses potential candidates based on the following:

- (a) suitability of Director profile;
- (b) Director independence;
- (c) potential impact on boardroom interaction and dynamics;
- (d) other directorships and principal commitments; and
- (e) existing and potential conflict of interests.

Due diligence is conducted on potential candidates. Upon shortlisting, the NC, in consultation with Board Chairman, evaluate and interview candidates to assess their suitability and whether the candidates understand the roles and responsibilities involved in their appointments. The NC thereafter makes the final recommendation to the Board with details of the candidate's resume and due diligence results.

During the year, the NC supervised an exercise to evaluate the Board's and individual Director's performance. The objective of the exercise was to identify and prioritise areas for continuous improvement to the Board's effectiveness.

Corporate Governance

3 NOMINATING COMMITTEE (NC) (CONT'D)

For the purpose of the evaluation exercise, an independent consultant was appointed to conduct the evaluation process. The evaluation of the Board as a whole and evaluation of individual Directors were based on the framework established and used in the previous years and as updated by the NC. The consultant provided summarised findings, interpretation of findings and preliminary recommendations for the Board's consideration. In addition, the Company also appointed an independent advisor to provide valuable insight to the Chairman and the Board on the results of the evaluation. The consultant and the advisor do not have any other direct connection with the Company or any of its Directors.

All Directors assessed the Board as a whole on each of the following parameters:

- Board composition and independence
- Board role and functioning
- Board processes
- Information management
- Monitoring company performance
- Committee evaluation
- Managing risk and adversity
- Managing CEO performance and succession planning
- Corporate integrity and social responsibility
- Director development and remuneration
- Overall perception of the Board

In addition, the contribution of each individual Director to the effectiveness of the Board was assessed by their peers on the Board. The evaluation was based on the following five parameters:

- Contribution
- Knowledge and abilities
- Teamwork
- Integrity
- Overall effectiveness

The Board expects to carry out evaluation of the Board as a whole (including Board Committees) and self-evaluation exercises annually to identify areas of improvement and as a form of good Board management practice.

The Board accepted, as a guide, the NC's recommendation that a Director of the Company should not have more than six listed company board representations and other principal commitments, taking into consideration the definition of "principal commitments" in the Code. After considering the competing time commitments faced by Directors who serve on multiple boards and who have other principal commitments, the Board, in concurrence with the NC, determined that in fact, all the Directors have six or less listed company board representations and other principal commitments, and that the Directors were able to and have been adequately carrying their respective duties and responsibilities as directors of the Company.

Directors are provided with continuing education or briefings in areas such as changes in financial reporting standards and issues which have a direct impact on financial statements, corporate governance, changes in laws and regulations, risks identification, as well as industry trends and updates, so as to update the Directors on relevant matters. In addition, Directors are invited from time to time to attend professional programmes for Directors conducted by the Singapore Institute of Directors, and other relevant bodies.

4 REMUNERATION COMMITTEE (RC) (Code of Corporate Governance Principles 7 & 8)

The RC comprises Mr Moses Lee Kim Poo as Chairman, Mr Choo Chiau Beng, Mr Low Huan Ping, Mr Chow Kok Kee and Mr Alan Ow Soon Sian, all of whom are non-executive Directors. Mr Moses Lee Kim Poo, Mr Chow Kok Kee and Mr Alan Ow Soon Sian are the independent Directors on the RC.

The Director of Human Resource assists the RC in the execution of its functions and the RC has access to external expert advice, if required.

The RC, which has written terms of reference approved by the Board, performs the following functions taking into account the relevant principles in the Code and other salient factors:

- Recommend to the Board a framework of remuneration for the Board of Directors and key executives;
- Recommend to the Board the specific remuneration packages for all executive and non-executive Directors and the CEO or executive of similar rank if the CEO is not an executive Director;
- Recommend to the Chairman of the Board for endorsement of the remuneration of the CEO;
- Review the remuneration of senior management;
- Decide on long-term incentive benefits, including the Company's Share Option Scheme and the scope of eligibility for such long-term incentive;
- Approve the granting of share options under the Company's Share Option Scheme and administer the Share Option Scheme in accordance with the rules of the Scheme; and
- Ensure that remuneration of the Board of Directors is in compliance with the Code.

The number of applicable RC meetings held in 2015 and the attendance of each member at those meetings are as follows:

RC Member	Number of Applicable RC Meetings Held in 2015	Number of Applicable RC Meetings Attended
Moses Lee Kim Poo ¹	2	2

Corporate Governance

5 DISCLOSURE ON REMUNERATION (Code of Corporate Governance Principles 8 & 9)

The Company sets remuneration packages to ensure that they are competitive and sufficient to attract, retain and motivate Directors and senior management of the required experience and expertise to run the Group successfully.

In setting remuneration packages for Directors and officers of the Group, the pay and employment conditions within the industry and in comparable companies are taken into consideration.

Directors' fees are subject to shareholders' approval at the AGM. Each non-executive Director is paid a fixed fee, the amount of which takes into account the level of responsibilities held. The framework for determining fees payable to each non-executive Director for 2015 is as follows:

Board	Chairman	S\$100,000 per annum
	Member	S\$50,000 per annum
Audit Committee	Chairman	S\$40,000 per annum

5 DISCLOSURE ON REMUNERATION (CONT'D)

In 2015, share options were granted to the above members of the senior management team as part of the Company's Share Option Scheme, further details of which can be found on pages 95 to 97 of the Annual Report.

The aggregate remuneration paid to the top five key management personnel (who are not Directors or the CEO) was S\$2,843,165.

The Company does not have any employee who is an immediate family member of a Director or the CEO in 2015.

6 AUDIT COMMITTEE (AC) (Code of Corporate Governance Principles 12 & 13; Listing Manual Rule 1207(6))

The AC comprises Mr Alan Ow Soon Sian as Chairman, Mr Chow Kok Kee and Ms Elaine Lee Kia Jong as members, all of whom, including the Chairman, are independent Directors. Two of the members, including the Chairman, have accounting, tax or related financial management expertise or experience.

The AC, which has written terms of reference approved by the Board, performs the following functions taking into account the relevant principles set out in the Code and other salient factors:

- (a) Review with the external auditor the audit plan including the nature and scope of the audit before its commencement, their evaluation of the systems of internal controls, their annual reports and their management letters and management's response;
- (b) Review significant financial reporting issues and judgements so as to ensure the integrity of the financial statements of the Company and any formal announcements relating to the Company's financial performance. This includes review of quarterly, half-year and annual financial statements before submission to the Board for its approval;
- (c) Review the assistance given by management to the external auditor;
- (d) Review the independence and objectivity of the external auditor;
- (e) Review the nature and extent of non-audit services performed by the external auditor;
- (f) Examine the scope of internal audit procedures and the results of the internal audit;
- (g) Review the adequacy of the Company's internal controls, including financial, operational, compliance and information technology controls, policies and systems established by management and reporting on any pertinent aspects of risks thereto (collectively, internal controls), and ensure that a review of the effectiveness of the Company's internal controls is conducted at least annually and such a review can be carried out by the internal and/or external auditor;
- (h) Meet with the external and internal auditors without the presence of management at least annually;
- (i) Review the effectiveness of the Company's internal audit function and ensure that it is adequately resourced and has appropriate standing within the Company;
- (j) Investigate any matter which falls within the AC's terms of reference, having full access to and co-operation by management and the full discretion to invite any Director or executive officer to attend its meetings, and reasonable resources to enable it to discharge its functions properly;

6 AUDIT COMMITTEE (AC) (CONT'D)

- (k) Review interested persons transactions falling within the scope of Chapter 9 of the Listing Manual of the SGX-ST;
- (l) Make recommendation to the Board on the appointment/re-appointment/removal of the external auditor, and approve the audit fees and terms of engagement of the external auditor; and
- (m) Review arrangements by which staff of the Company may, in confidence, raise concerns about possible improprieties in matters of financial reporting or other matters, so as to ensure that arrangements are in place for the independent investigation of such matters and for appropriate follow up action.

The number of applicable AC meetings held in 2015 and the attendance of each member at those meetings were as follows:

AC Member	Number of Applicable AC Meetings Held in 2015	Number of Applicable AC Meetings Attended
Alan Ow Soon Sian	4	4
Chow Kok Kee	4	3
Kannan Ramesh ¹	2	2
Elaine Lee Kia Jong ²	2	2

¹ Mr Kannan Ramesh retired as a Director with effect from 30 April 2015

² Ms Elaine Lee Kia Jong was appointed as a Member of the Audit Committee with effect from 30 April 2015

During the year, the AC had full access to and cooperation from the Company's management, and internal and external auditors. The CEO, Chief Financial Officer (CFO) and Chief Commercial Officer (CCO), as well as the internal and external auditors, attended the meetings of the AC. The AC also had full access to the internal and external auditors without the presence of management.

The AC reviewed the financial statements of the Group before submitting them to the Board for its approval and the announcement of the financial results. The AC also reviewed and monitored the Group's financial condition, internal and external audits, and the effectiveness of the Group's system of accounting and internal controls.

The AC considered the volume of non-audit services provided by the external auditor to the Group, and being satisfied that the nature and extent of such services will not prejudice the independence and objectivity of the external auditor, confirmed their re-nomination. The aggregate amount of fees paid to the external auditor in 2015 and a breakdown of the fees paid in respect of audit and non-audit services is stated in the notes to the financial statements.

In the appointment of Ernst & Young LLP (an audit firm registered with the Accounting & Corporate Regulatory Authority) as Auditor for the Company and its subsidiaries (save for Kliq Pte Ltd for which there is no statutory audit requirement), the Company has complied with Rules 712 and 715 of the Listing Manual.

7 RISK COMMITTEE (Code of Corporate Governance Principle 11)

The Risk Committee was established by the Board on 16 July 2012 to assist the Board in discharging its duties to shareholders on risk management, and to help improve Board monitoring of the risk management system, framework and processes of the Company and the Group. The Risk Committee comprises Mr Low Huan Ping as Chairman, Mr Alan Ow Soon Sian, Mr Huang Cheng Eng and Mr Lionel Lim Chin Teck as members, all of whom are non-executive Directors and three of whom are independent Directors.

Corporate Governance

7 RISK COMMITTEE (CONT'D)

The Risk Committee, which has written terms of reference approved by the Board, performs the following functions taking into account the principles set out in the Code and other salient factors:

- (a) Advise the Board on the Company's overall risk exposure and strategy;
- (b) Review the effectiveness of the Company's risk management system and policies;
- (c) If deemed necessary by the Board, before a decision to proceed on a significant transaction is taken by the Board, advise the Board on the proposed actions thereto, if any, on the risk aspects and implications of risk exposures thereto;
- (d) Report to the Board on material matters, finding and recommendations, on the financial, operational and compliance risks and any other material risks applicable to the Company;
- (e) Obtain regular updates from management on key enterprise wide risks faced by the Company, so as to enable the Risk Committee to clearly define its oversight responsibilities and review the process available to manage these risks;
- (f) Set up process for the accurate and timely monitoring of significant exposures and risk types of critical importance;
- (g) Review the Company's overall risk profile; and
- (h) Review the risk policies and processes, where applicable and ensure that a review of the robustness and effectiveness of the risk policies and processes is conducted at least annually, which review may be facilitated by the external auditor or advisors.

The number of Risk Committee meetings held in 2015 and the attendance of each member at those meetings are as follows:

Risk Committee Member	Number of Applicable Risk Committee Meetings Held in 2015	Number of Risk Committee Meetings Attended
Low Huan Ping ¹	4	4
Kannan Ramesh ²	2	2
Alan Ow Soon Sian	4	4
Huang Cheng Eng ³	2	2
Lionel Lim Chin Teck ⁴	2	2

- 1 Mr Low Huan Ping was appointed as Chairman of the Risk Committee with effect from 30 April 2015
- 2 Mr Kannan Ramesh retired as a Director with effect from 30 April 2015
- 3 Mr Huang Cheng Eng was appointed as a Member of the Risk Committee with effect from 30 April 2015
- 4 Mr Lionel Lim Chin Teck was appointed as a Member of the Risk Committee with effect from 30 April 2015

During the year, the Risk Committee had full access to and cooperation from the Company's management, the Company Secretary and Head of Risk Management. The CEO, Chief Operating Officer, CCO, CFO and the Head of Risk Management attended the meetings of the Risk Committee.

The Risk Committee may invite from time to time persons who have the relevant experience to assist the Committee, and obtain at the Company's expense, external legal or other professional advice on any matter within its terms of reference.

8 RISK MANAGEMENT

(Code of Corporate Governance Principle 11; Listing Manual Rule 1207(4)(b)(iv))

The Company is committed to continually improve its approach to managing risks to ensure that it maintains a strong, integrated risk and compliance culture.

The Board, assisted by the Risk Committee, has general oversight of the Company's risk management system and mitigation strategies. This includes reviewing of the Company's portfolio of risks and assessing the appropriateness of management's response to risk exposures. A senior management executive team is responsible for driving the risk management processes and ensuring compliance throughout the Company. Risk accountability is clearly assigned across all departments and functional units.

The internal controls, including financial, operational, compliance and information technology controls, and risk management systems are continually reviewed by the Board to improve consistency and effectiveness of risk identification and assessment across the Company. Risk training programmes are conducted on an on-going basis to inculcate and reinforce a proactive risk management culture within the Company. During the year, an operational site visit for the Board was also organised to enable the new Directors to learn more and better familiarise themselves with the Company's operations.

In June 2015, the Company achieved ISO 220301 certification for its Business Continuity Management systems.

Overall, the Board considers that the Company, in its risk management system, adopts a prudent and proactive approach to achieve an optimal balance between risks and returns, mitigating key risks and maximising opportunities, thereby enhancing the Company's decision making capabilities and organisational resilience.

9 INTERNAL CONTROLS

(Code of Corporate Governance Principle 11)

The Group has established a system of internal controls to address the financial, operational, compliance and information technology risks of the Group. Based on the work performed by the internal and external auditors, and the reviews performed by management, the AC and the Board, the Board, with the concurrence of the AC, is of the opinion that, as at the date of this report, the Group's internal controls are adequate to address the abovementioned risks of the Group in its current business environment.

The system of internal controls provides reasonable, but not absolute, assurance that the Group will not be adversely affected by any event that could be reasonably foreseen as it strives to achieve its business objectives.

However, the Board notes that no system of internal controls could provide absolute assurance in this regard, or absolute assurance against the occurrence of material errors, poor judgement in decision-making, human errors, losses, fraud or other irregularities.

The Board receives assurance from the CEO and CFO during the meetings of the Board, Audit and Risk Committees:

- (a) that the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances; and
- (b) regarding the effectiveness of the Company's risk management and internal control systems.

Corporate Governance

10 INTERNAL AUDIT (Code of Corporate Governance Principle 13)

The Group has an internal audit function that is independent of the activities it audits, and the Internal Auditor has access to the relevant records of the Company.

The Internal Auditor reports primarily to the Chairman of the AC and administratively to the CEO. The AC approves the hiring, removal and evaluation of the Internal Auditor. The Internal Auditor meets the standards set by internationally recognised professional bodies including the Standards for the Professional Practice of Internal Auditing set by the Institute of Internal Auditors.

The AC reviews, on an annual basis, the adequacy of the internal audit function. The AC has reviewed and is satisfied that the Company's internal audit function is adequately resourced and has appropriate standing within the Company.

11 COMMUNICATION WITH SHAREHOLDERS (Code of Corporate Governance Principles 14, 15 & 16)

Communication with shareholders and the investment community forms an integral part of the Group's corporate governance and commitment to transparent, comprehensive and prompt disclosure. Various communication channels are used to inform shareholders about the performance of the Company and to provide updates on pertinent developments. These include annual reports, quarterly results and other announcements made through the SGXNET, press releases and the Company's website, as well as through the AGM. Presentations given at appropriate intervals to representatives of the investment community, audio webcasts and call transcripts of quarterly results presentations, including question and answer sessions, are also made available on the Company's website.

In 2015, the Company continued to release its quarterly and full year results within one month from the end of the relevant financial period, in the form of a press release, financial statements containing management's discussion and analysis of performance and outlook, and a presentation containing highlights and a review of financial and operating performance. Conference calls with media and analysts were held jointly immediately after the release of results. Audio webcasts of these events were made available on the Company's website. Information on major new initiatives by the Group was also made public as soon as feasible.

The Company participated in several investor conferences and roadshows during the year, and discussions were based on publicly available materials and information. The Company does not practise selective disclosure, and is mindful of the remedial action required to make public disclosure as soon as practicable, should there be an event of inadvertent disclosure.

The Group views the AGM as an important platform for shareholders to engage in interactive and open dialogue with the Board and senior management. As such, all Board members and senior management make their best efforts to attend each AGM. The Annual Report and notice of the AGM were sent to all shareholders more than two weeks prior to the AGM which was held on 13 April 2015, to give shareholders sufficient time to review the information. During the AGM, shareholders had the opportunity to voice their views and direct questions regarding the Group to Directors, including the Chairman and the chairmen of the Board Committees, as well as to the Company's senior management.

All resolutions were put to vote by electronic polling at the AGM on 13 April 2015, and announcements of the detailed results showing the number of votes for and against each resolution and the respective percentages were also made at that AGM. Minutes of the AGM that include substantial and relevant comments and queries from shareholders relating to the agenda of the meeting, and responses from the Board and senior management, was promptly prepared by the Company post-AGM and made available to shareholders upon request.

11 COMMUNICATION WITH SHAREHOLDERS (CONT'D)

The Company managed ongoing communication with the investment community throughout the year and responded diligently and promptly to all enquiries from shareholders, analysts and other interested parties, through a dedicated Investor Relations team.

M1 is committed to creating long-term value for shareholders. This is exhibited through our long-standing policy of maintaining a sustainable dividend payout ratio and returning excess cash to shareholders in the absence of value-enhancing opportunities. For 2016, we will continue to maintain a dividend payout ratio of at least 80% of net profit after tax.

12 SECURITIES TRANSACTIONS (Listing Manual Rule 1207(19))

The Group has issued a Code for Dealings in M1 Shares (M1 Code) for the guidance of Directors, management and other officers. The M1 Code, which is based on the SGX-ST Listing Rule 1207(19) with respect to dealings in securities, stipulates that Directors, management and other officers of the Group who have access to price-sensitive and confidential information are not permitted to deal in the Company's shares during the periods commencing two weeks before the announcement of the Group's first and third quarter results and one month before the announcement of the Group's half and full year results and ending on the date of the announcement of such results; and when they are in possession of price-sensitive and confidential information, in accordance with the laws of insider trading.

The M1 Code also includes the prohibition that an officer should not deal in the Company's shares on short-term considerations. The M1 Code is incorporated as part of the Group's Human Resource Manual and is available on the Intranet accessible by all staff. A reminder is also circulated to Directors, management and other officers every quarter before the commencement of the period during which dealings in shares are prohibited and to those with access to price-sensitive and confidential information.

13 ETHICAL BEHAVIOUR (Code of Corporate Governance Principle 12)

The Group subscribes to a high standard of corporate governance, with a "zero tolerance" policy on fraud, corruption and other forms of unethical behaviour or conduct.

The Company has in place policies and processes that manage risk, deter fraud and ensure accountability and integrity. Employees are encouraged to report suspicious or irregular behaviour they encounter in the course of work. The Company will keep confidential the identity of any whistleblower.

Acts that violate the M1 Policy for Disclosure of Reportable Conduct include:

- Unlawful acts
- Theft, misuse or wilful damage of the Company's resources
- Dishonest, fraudulent or corrupt activities
- Misuse or abuse of power or authority for any unauthorised or ulterior purpose
- Unsafe work practices

The Company will investigate allegations raised, and firm action will be taken to deal with corrupt behaviour or illegal acts. Significant cases will be escalated to members of senior management and the Board of Directors, and/or referred to the appropriate authorities, such as the Singapore Police Force, Commercial Affairs Department or Corrupt Practices Investigation Bureau.

Corporate Governance

13 ETHICAL BEHAVIOUR (CONT'D)

Individuals who make a report under this Policy will be protected from reprisal if he/she:

- Makes the report in good faith and without malice
- Reasonably believes the matters referred to in the report to be substantially true
- Does not seek any personal or financial gain from making the report
- Follows the reporting procedure set out in the Policy

If there are any attempts at reprisal against the whistleblower, he/she will be given the opportunity to bring the matter to the attention of the appropriate level of senior management and/or the AC Chairman.

14 EMPLOYEE CODE OF CONDUCT (Code of Corporate Governance Principle 12)

The Company has a Code of Conduct which all employees are required to adhere to. The key tenets of this Code, which is available on the Company's Intranet, include the following:

- Employees are prohibited from activities that may lead to conflicts of interest when dealing with suppliers, customers and other business partners. If a conflict of interest arises, their manager must be informed immediately
- Employees and their family members are prohibited from soliciting or accepting any gifts or favours from any suppliers or clients. If refusal is difficult, the employee must report the gift to his/her line manager. The gift should be handed over to the Company's Human Resource department for further handling and appropriate disposal
- Employees are not allowed to download hacking tools or file-sharing programmes for the purpose of downloading pirated and other illegal materials
- Employees should not distribute content disparaging colleagues, customers or business partners
- Employees are expected to maintain appropriate relationships with other employees. Employees should disclose family or close personal relationships between themselves to their managers, with such employees being strictly prohibited from working in a supervisor-subordinate relationship

15 RESPONSIBLE PROCUREMENT (Code of Corporate Governance Principle 12)

The Company purchases the following key products and systems from time to time, to support its business operations:

- Networks and related application systems
- Application systems and computers
- Mobile phones, tablets, accessories, and other consumer devices
- Furniture, fittings and equipment for the Company's offices

The Group's procurement function adheres to a transparent procurement process, and suppliers are selected based on merit or criteria such as vendor experience and track record, ability to meet the required specifications, price competitiveness, and level of after-sales support.

To further enhance ethical practices on the part of the Company's suppliers, the M1 Supplier Code of Conduct was introduced in January 2015. This Code sets out the Company's expectations of its suppliers, including their compliance with all applicable laws, prohibition on illegal or unethical behaviour such as bribery and corruption, and protection of customer data.

For financial details of the Company's procurement, please refer to the Financial Statements of this Annual Report, under Fixed assets and Inventories.

16 INTERESTED PERSON TRANSACTIONS AND MATERIAL CONTRACTS (Listing Manual Rule 907 & 1207(8))

Interested person transactions carried out during the financial year ended 31 December 2015 by the Group were as follows:

¹ As defined in Chapter 9 of the Listing Manual of the SGX-ST

Save for the interested person transactions disclosed above, there were no other material contracts entered into by the Company and its subsidiaries involving the interests of its CEO, Directors or controlling shareholders, which are either still subsisting at the end of the financial year or, if not then subsisting, entered into since the end of the previous financial year.

Investor Relations

Effective communications with the investment community, shareholders and other interested parties remains a key objective of our Investor Relations (IR) programme, which we seek to fulfil through a series of planned IR activities and timely dialogues. Throughout the year, we have provided our stakeholders with relevant and prompt updates, to facilitate their having an informed opinion of M1 and the industry which we operate in.

In 2015, we continued to publicly release quarterly, interim and full year results within one month of financial period end. All materials relating to the Company's results, including presentation slides and press releases, were made available immediately on our website, after posting with the Singapore Exchange (SGX). Analysts, investors and the media were invited to join our conference calls, which were accompanied by question and answer sessions with senior management, on the same day of every results announcement. Audio webcasts and transcripts of these events were also made available on the M1 website.

Key developments for M1 in 2015 included the launch of SIM-only plans, known as M1 mySIM, to provide customers with better value and more flexibility over the smartphone they want to use, as well as the launch of M1 Data Passport service which enables customers to use their existing data bundles in 29 overseas destinations. The IR team continued to ensure all interested parties are kept abreast of major developments, through timely distribution of press releases and a proactive approach in answering related queries.

As part of our ongoing commitment to open communication and regular engagement with the investment community, senior management remained directly accessible to analysts and investors, providing them with updates of the Company's developments and outlook through various avenues, such as one-on-one and group meetings, teleconferences, non-deal roadshows (NDRs) and investor conferences, both locally and abroad. These first-hand interactions have allowed us to understand analysts and investors' views on the Company's performance and strategy, and address any concerns that they may have.

As at 25 February 2016, the free float¹ of M1 shares was 39.18%, with the majority shares held by institutional investors across Asia, the UK and the USA. To maintain our engagement with current and potential institutional investors in these regions, we undertook NDRs in 2015 to Hong Kong, Japan, the UK and the USA. Locally, we

participated in five investor conferences, namely Bank of America Merrill Lynch ASEAN Stars Conference, Barclays SGX Corporate Day, Deutsche Bank Access Asia Conference, Nomura Investment Forum Asia and Morgan Stanley Asia Pacific Summit.

The IR team is easily accessible to analysts, current and potential investors who may need to seek clarification or provide feedback with regard to the Company. All email queries are welcomed and can be addressed to ir@m1.com.sg. Shareholders and interested parties are also encouraged to access the M1 corporate website at www.m1.com.sg for the latest updates.

The Annual General Meeting (AGM) is an important platform for shareholders to communicate directly with the Board and members of the senior management team. We continue to host our AGMs at a central and accessible location for shareholders' convenience. Board members and senior management make their best efforts to attend the AGM. Our 13th AGM, held on 13 April 2015 at Singapore Marriott Hotel, was well attended by shareholders. The minutes of the AGM included substantial and relevant comments and queries from shareholders relating to the agenda of the meeting, and responses from the Board and members of senior management. These were promptly prepared after the AGM and made available to shareholders upon request.

M1 is committed to creating long-term value for shareholders. This is exemplified through our long-standing practice of maintaining a sustainable dividend payout ratio and returning excess cash to shareholders in the absence of value-enhancing opportunities. For 2015, we announced an interim dividend of 7.0 cents per share and a final dividend of 8.3 cents per share, bringing the total dividend declared to 15.3 cents per share. For 2016, we will continue to maintain a dividend payout ratio of at least 80% of net profit after tax.

¹ Free float is defined as the percentage of total issued share capital of the Company held in the hands of the public (on the basis of information available to the Company)

Sustainability Report

INTRODUCTION

M1 remains committed to conducting its business in a responsible, ethical and sustainable way, and to play a part in benefitting our stakeholders, the community we live in and the environment through our continued sustainability efforts.

This annual sustainability report covers our economic, environmental, social and corporate governance performance for 2015.

Details of M1's corporate practices can be found in the Our Business section. We provide a holistic, inclusive and collaborative workplace for all employees, and a description of our human resource policies and practices, with relevant statistics, is available in the Our People section. Our contributions to the community, and continued efforts to minimise our environmental footprint, are available in the Our Community and Our Environment sections.

Internationally accepted measurement units are used in the reporting of performance data and indicators. A full listing of reported General Standard Disclosures and Specific Standard Disclosures can be found on pages 87 to 92 of this Annual Report.

We continually review our sustainability performance, as well as monitoring and reporting processes, for further enhancements or improvements.

We welcome feedback on this report and possible areas of improvement at corpcomms@m1.com.sg.

REPORTING SCOPE AND BOUNDARIES

This report has been prepared in accordance with the Global Reporting Initiative's (GRI) G4 "Core" level guidelines, in describing key materiality issues and impact on our stakeholders, and is limited to M1's operations under its direct control for the period 1 January to 31 December 2015.

We reviewed the key environmental, social and governance issues highlighted by our stakeholders, and applied GRI's G4 reporting principles, including stakeholder inclusiveness, key materiality, the sustainability context, and indicator comparability to the identified key material issues most relevant to our business operations and stakeholders, and presented the results accordingly.

We have not included these issues in our report as they are not material to our business, due to our operating environment or the nature of our business.

Sustainability Report

OUR BUSINESS

M1 engages in fair, transparent and responsible business practices in all dealings with our stakeholders, including customers, suppliers and business partners. We comply with our regulatory requirements, and meet or surpass the expectations of our customers.

FINANCIAL PERFORMANCE

Our key financial indicators are as follows:

Financial indicators	2015 (\$m)	2014 (\$m)
Operating revenue	1,157.2	1,076.3
Net profit after tax	178.5	175.8

Dividends paid to shareholders	177.0	196.9

For a more detailed discussion on our financial performance, please refer to the Financial Statements section of this Annual Report.

NETWORK INVESTMENTS

The performance and resiliency of our networks remain key to our business, and we continually invest in new technologies, as well as coverage and capacity expansion, to deliver a better experience for our customers.

Since our inception, we have invested more than S\$1.8 billion in expanding and upgrading our mobile and fixed network infrastructure. This has enabled us to enhance our operational efficiency, better support our growing business and deliver new products and services to meet our customers' changing needs. M1 also continues to be at the forefront of empowering our customers in the digital world, such as in delivering Singapore's fastest 4G speeds¹ in 2015.

In 2015, we commenced a small cell network trial in high traffic locations, such as malls and MRT stations, to further improve customer experience. We also made available 4G Voice or Voice over LTE (VoLTE) calls, at no additional charge, enabling customers to connect their calls faster and at higher quality voice quality, compared to standard voice calls.

Further details of our network investments can be found in the Operating Review section of this Annual Report.

QUALITY PRODUCTS AND SERVICES

With a strong focus on delivering superior customer experience and offerings with meaningful value, we are committed to quality and innovation, and constantly review our products and services to ensure they are relevant and enable more people to enjoy the benefits of digital connectivity.

We understand how technology can make a difference in the lives of underprivileged or underserved communities such as low-income households. To help narrow Singapore's digital divide, we worked with the Infocomm Development Authority of Singapore (IDA) as its appointed Home Access provider, to enable low-income families with school-going children to enjoy the benefit of fibre broadband for S\$6 a month. We also assisted fibre network company Netlink Trust with its inaugural sponsorship programme last year to deliver free fibre access to 400 low-income households.

Sustainability Report

OUR BUSINESS

In catering to customers who prefer to buy their own handsets, we launched the mySIM plans in July 2015. These plans have been well-received by customers. Through the unique M1 Data Passport services, we enabled our customers to use their data bundles across 29 destinations including Australia, Malaysia, Japan, the United States and popular European countries, giving them the convenience of using their smartphones overseas the same way they do at home.

In the corporate segment, we made available an array of new products and services. M1's new XGPON (Gigabit Passive Optical Network) services, Singapore's first 2Gbps to 10Gbps GPON services, are designed to address the industry's gap in such corporate connectivity options. With the new services, M1 now offers Singapore's most extensive range

of corporate GPON connectivity services. During the year, M1 was appointed as Netlink Trust's key subcontractor to install fibre optic connectivity for corporate customers, further improving our end-to-end provisioning process and thereby the customer service experience.

In collaboration with CIMB, MasterCard and Wirecard, we launched a new mobile Point of Sale (mPOS) solution, transforming smartphones and tablets into terminals that allow merchants to accept credit, debit and prepaid card payments from customers anytime, anywhere. The launch of our advanced Machine-to-Machine (M2M) platform, M1 M2M Connect, will help deliver the benefits of smart M2M solutions to companies in raising their productivity, lowering costs, and tapping on new business opportunities.

DATA PASSPORT Launched in July 2015, M1's unique Data Passport service enables customers to use their existing M1 data bundles at overseas destinations including Malaysia, Australia, the United States and popular Asian and European destinations, at highly affordable rates. The service delivers convenience and value to both business and leisure travellers, and gives M1 customers the peace of mind to use their smart devices the way they do at home. As at end-2015, M1 Data Passport was available at 29 destinations worldwide.

REGULATORY COMPLIANCE

We conduct our business in a responsible and ethical manner, in compliance with all applicable laws and regulations. We also support voluntary codes and best practice guidelines that benefit our stakeholders and society at large.

Key laws and regulations include the Telecommunications Act which governs our core telecommunications business, as well as the Telecoms Competition Code 2012 which establishes quality of service (QoS) delivery standards to our customers. Our media-related services are operated in accordance with the Broadcasting Act, and we block access to websites as directed under applicable laws or by Media Development Authority of Singapore.

We protect vulnerable customers such as children and youth from undesirable content, and worked with the other mobile operators to create the Voluntary Code of Self-Regulation of Mobile Content in Singapore, to protect minors from accessing prohibited content via mobile phones. We have made available a variety of tools to enable parents to monitor the access of their children to sites online.

Additionally, we abide with all applicable business, health, manpower, consumer protection, data protection and marketing-related laws and regulations.

M1 was not fined by any authority in 2015 for non-compliance with such laws and regulations.

DATA PROTECTION

We respect our customers' privacy and do not collect, use or disclose their personal data other than as permitted or required under applicable laws and/or regulations, including the Personal Data Protection Act 2012 ("Act").

Our employees who handle customers' personal data have been trained on their obligations under the Act. Two senior executives of the Company have been appointed Data Protection Officers to oversee compliance with the Act in relation to both customer and employee personal data. To further empower our customers, our account management web portal has been revamped to enable them to choose if, and how, they want to receive marketing materials from M1.

M1 was not fined for any non-compliance with the Act in 2015.

TRANSFORMING THE RETAIL PAYMENTS SPACE In collaboration with CIMB, MasterCard and Wirecard, we launched an innovative mobile Point of Sale solution to transform smartphones and tablets into terminals that allow merchants to accept credit, debit and prepaid card payments from customers anytime, anywhere.

The M1 mPOS solution is designed to meet the needs of traditionally cash-based small businesses, startups, and "on-the-go" enterprises such as push-cart vendors and small cafes, allowing them to offer customers the convenience of card payment.

Sustainability Report

OUR BUSINESS

SINGAPORE'S BEST VALUE POSTPAID PLANS

Singapore consumers today have access to a wide selection of smartphones at affordable prices even without contract. This has given consumers even more flexibility over the smartphones they want to use, and how often they wish to upgrade them.

In catering to these customers who prefer to buy their own handsets, M1 was the first to launch Singapore's best value SIM-only plans in July 2015. Known as mySIM plans, which start from S\$30 a month for a 5GB data bundle, 300 minutes of calls, and 1,000 SMS/MMS, to S\$125 for a 20GB data bundle with unlimited calls and SMS/MMS, they have been well-received by customers.

RESPONSIBLE MARKETING

M1 clearly labels all our products and services in our advertisements and marketing collaterals, and provides relevant details in customers' contracts. Prior to processing any customer's transaction, our employees will strive to explain the following in a clear and concise manner:

- Prices
- Product specifications
- Excess charges
- Value-added services offered on a promotional or trial basis
- Early termination charges

TELECOMMUNICATIONS AND PUBLIC SAFETY

We recognise the public's interest on radio frequency (RF) radiation from telecommunications equipment, including mobile devices and base stations.

The World Health Organisation has found no substantiated link between exposure to RF radiation and adverse impact on human health. Additionally, IDA exercises strict control over the installation and transmitter power limits of M1's base station equipment, and conducts site visits to ensure compliance with the International Commission on Non-Ionising Radiation Protection's standards.

We are committed to public health and safety, and will continue to monitor RF radiation levels at our base stations and further scientific developments, to ensure our networks meet all relevant guidelines. We will also continue to be open and transparent in the area of public health and safety, and continue to work with the National Environment Agency and IDA to ensure the levels of exposure of RF radiation from our networks are well within the guideline limits.

CUSTOMER EXPERIENCE

Providing excellent customer service is one of our core tenets and we continually invest in training and review our business processes to ensure we constantly deliver a positive customer experience across all touch points of our business operations.

To help our employees better appreciate customers' needs and achieve service excellence, all new employees undergo an attachment at our customer contact centre and retail outlets during their orientation programme. In addition, our senior management also participate in a

frontline attachment programme at the centre or outlets to ensure that they continue to be customer-centric in carrying out their duties.

We recognise the importance of customer feedback in helping us further improve our customer service, and we obtain such information through a multitude of channels including our 24-hour contact centre, retail outlets, letters to the media, mystery shopping surveys, and from social media networks such as Facebook.

SMARTER HOMES M1 and Keppel Land's Smart Lives programme, announced in December 2015, will enable 30 households at Keppel's 622-unit The Luxurie condominium in Sengkang to enjoy smart home technology.

The programme will run for 12 months, and enable the selected households to enjoy a suite of smart healthcare, security and lighting solutions, such as alerts to residents when unwanted entry or motion is detected in off-limit areas in the home. Feedback will be gathered to ensure the solutions are relevant and meet homeowners' needs, and the programme will eventually be extended to other Keppel residential and commercial properties.

CELEBRATING SG50 As a homegrown company, we wanted to do our part to help our nation celebrate its 50th birthday. To enable our highly connected customers to freely share their joys and wishes for our nation with each other, on this very special occasion, we offered free voice calls, SMS/ MMS messages and mobile data for local usage, over the National Day weekend.

Sustainability Report

OUR PEOPLE

Our dedicated employees are critical to our continued success. It is important that we attract, develop and retain exceptional people to continue to deliver a better experience for our customers. We are committed to fostering a work environment and organisation culture that embraces inclusiveness, diversity and teamwork, as well as promotes ownership mindset, while offering opportunities for our people to realise their full potential.

EMPLOYEE PROFILE

As at end-2015, M1 employed 1,563 people with the majority engaged in technology, marketing, customer service and retail functions. Most of our people are employed on a full-time basis, with a small number of part-timers and contract hires.

EQUALITY AND DIVERSITY

At M1, we value the diversity of our people and believe a diverse workforce fosters greater innovation, helps us better understand and serve our customers, and empowers our people to deliver their best.

In recruitment, candidates are evaluated on their qualifications, capabilities and experience, regardless of gender, age or ethnicity. Annual employee evaluations are conducted through a transparent appraisal process, and performance targets set with the employee's input. M1 is a signatory to the Tripartite Alliance for Fair Employment Practices' Employers' Pledge of Fair Employment Practices, which promotes fair, responsible and merit-based employment practices. We did not receive any complaint in 2015 regarding discriminatory practices.

Sustainability Report

OUR PEOPLE

COMPENSATION AND BENEFITS

M1 employees enjoy competitive remuneration packages commensurate with their experience, performance and job responsibilities. Depending on the performance of the Company, eligible employees receive an annual variable performance bonus, as well as share options under the M1 Employee Share Option Scheme. This enables us to align the interests of eligible employees with the Company's longer term performance and retain talent.

M1 is also committed to our employees' physical and mental health and well-being.

We provide full-time employees with outpatient and inpatient medical coverage, as well as regular health screenings and group insurance coverage. Following a review, we appointed Raffles Medical Group as our healthcare service provider to better manage our medical benefits programme, and provide a consistent quality of care and services to our employees and their dependents.

Through our Fun!@M1 initiative, employees can participate in lunch-time talks on topics such as stress management and parenting, as well as company-wide sporting events including road relays, basketball, netball and bowling. Launched in 2013, our Fun!@M1 initiatives continue to enjoy high participation rates amongst our staff.

For the benefit of employees who enjoy working up a healthy sweat, we have a fully-equipped gymnasium open for use round the clock. There are also facilities such as bicycle racks and shower rooms, to support employees who wish to walk, run or cycle to work.

M1's flexible benefits programme allows employees to tailor their benefits portfolio according to their needs, through a variety of products and services including dental treatment, personal insurance and childcare fees. We also offer subsidised meals to all employees at our staff canteen.

Complimentary passes to popular attractions such as the Singapore Zoological Gardens, River Safari, Night Safari and Jurong Bird Park, as well as chalet rentals at subsidised rates are available throughout the year for employees and their families to enjoy.

In fostering team bonding and camaraderie, each department organises team building and de-stress activities such as games, craft-work, and meal outings. In 2015, instead of an annual Company Dinner and Dance, M1's employees and their loved ones were treated to an exhilarating Cirque du Soleil TOTEM performance.

SUPPORTING PRO-FAMILIES INITIATIVES

In support of staff with families, we offer pro-family benefits such as paternity leave and shared parental leave schemes ahead of legislative development, as well as extended medical coverage to their dependents. Our offices feature dedicated on-site nursing facilities and a childcare centre.

As a strong advocate of family values, we support the annual national "Eat With Your Family Day" initiative, whereby employees are allowed to leave work earlier to dine with family members. Our annual "Bring Your Kids to Work Day" also enable children of our staff to spend a day with their parents at work and gain a better appreciation of their parents' job responsibilities at M1.

WORKPLACE SAFETY

To promote a safe and healthy work environment, we have in place safety procedures that all employees, contractors and visitors are required to comply with. We also conduct regular workshops to familiarise and keep employees up to date with our workplace safety and health procedures and regulations.

First aid kits and automated external defibrillators (AEDs) are available in our offices and selected retail outlets. In addition, 30 employees have been trained in the use of the AEDs and cardio-pulmonary resuscitation techniques, in case of a medical emergency.

There were no workplace accidents or injuries sustained by our employees in 2015.

TRAINING

Our people are our most important resource in driving business growth. We continually invest in employee training to enhance their professional knowledge and skills, as well as to support their personal development to reach their potential.

In addition to regular in-house programmes such as in the areas of effective negotiations, managing conflict and interpersonal communications, we also support employees who attend external courses and conferences relevant to their work, as well as encourage longer-term learning options such as post-graduate studies and certification courses, through subsidies and measures such as examination leave.

New initiatives launched in 2015 include a diploma scholarship programme and an internship programme for Institute of Technical Education students. The average employee training hours in 2015 was 42.2 hours, compared to 36.6 hours in 2014.

MENTORING PROGRAMME

M1's Mentoring Programme, developed together with an external talent development consultant, is designed to help mid-management employees grow professionally by tapping into the cumulative experience and wisdom of M1's senior management team. Reception has been positive, and the programme has since been expanded to more participants for 2016.

M1 DIPLOMA SCHOLARSHIP

M1, in collaboration with Nanyang Polytechnic and Temasek Polytechnic, launched the M1 Diploma Scholarship programme in April 2015, to attract and groom outstanding second and third year students to take up operational leadership roles within M1. Reception has been positive, with 29 applications, and three scholarships awarded, during the year.

OPEN AND TRANSPARENT COMMUNICATIONS

Open and regular communications with our employees is fundamental to employee engagement.

Through M1's monthly newsletter VOICE and regular company-wide email updates, employees are apprised of developments in the industry and marketplace. The CEO also sends out a quarterly message to all employees on the Company's financial performance and pertinent developments in the quarter, as well as on ad-hoc occasions as necessary. In addition, townhall-style discussion sessions are conducted twice a year to enable employees to interact with senior management and share their views on company-related matters.

LABOUR RIGHTS

M1 adheres to all regulations governing employment in Singapore such as the Employment Act that prohibits the employment of children and youth under the age of 16.

Employees who resign can leave the Company after they serve or pay out their contracted notice period. In the event of an organisational change, affected employees will be considered for redeployment elsewhere within the organisation.

We support the union's efforts to further worker welfare and labour-management harmony and have a Collective Agreement with the Singapore Industrial & Services Employees Union, covering matters such as working hours, overtime pay, and notice periods. As at end-2015, there was a 10% increase in union members compared to a year ago. Due to an enlarged employee base,

union members comprise 51% of eligible employees in 2015, compared to 54% a year ago.

In encouraging our suppliers to abide by relevant labour regulations and industry best practices such as non-discrimination and fair compensation, the M1 Supplier Code of Conduct was introduced in January 2015.

ITE TRAINEESHIP PROGRAMME A new Institute of Technical Education (ITE) Traineeship programme was introduced in 2015.

The programme provides ITE students an opportunity to "Learn-As-You-Earn", through a traineeship programme with M1 while pursuing their national certificate at ITE. As part of this programme, trainees will spend two to three days at ITE studying, and the remainder of their work week with M1. There is currently one trainee, who has been attached to M1's Customer Service department since April 2015. The 2016 selection is currently ongoing.

Sustainability Report

OUR COMMUNITY

M1 remains committed to help create value for the community in a sustainable manner, through our corporate social responsibility initiatives. In 2015, we continued to actively support the arts, sports and youth causes with a mix of ongoing and new projects.

ARTS AND US

M1 has been supporting the arts since 1997, as we believe a thriving arts scene is important in enriching the quality of life, as well as strengthening social bonds and our identity, in a multicultural country like Singapore. For our longstanding contributions, which have been instrumental in helping to shape Singapore's arts scene, we were presented with a special SG50 Arts Patron Award in 2015 by the National Arts Council.

Together with the passionate team from The Necessary Stage, we presented the 11th edition of the M1 Singapore Fringe Festival, with the theme "Art and Loss", in January 2015. The highly anticipated annual festival, which featured 18 works, 28 performances and four exhibitions by local and international artistes, drew a record audience of close to 15,000.

The M1 Chinese Theatre Festival, which featured an original children's musical to experimental works from Taiwan and Hong Kong, ran for four weeks over July and August 2015. In partnership with Theatre Practice, the festival brings small to mid-sized quality Chinese theatre performances to local audiences, accessible to both adults and children.

We increased our support to the theatrical scene during the year with the title sponsorship of the M1-The Straits Times Life! Theatre Awards 2015 in April, in honouring outstanding achievements in local theatre and recognising the contributions of theatre productions in Singapore.

In contemporary dance, M1 continued to support leading dance companies, T.H.E Dance Company and Frontier Danceland, in the development of this art form and young talents. Growing from strength to strength, the 6th edition of M1 CONTACT Contemporary Dance Festival was held from November to December

2015. In partnership with T.H.E Dance Company, the festival comprised three weeks of exhilarating dance performances, choreographic workshops and technique classes, as well as the M1 Open Stage – a distinctive platform for young, talented and aspiring dancers to showcase their works. With Frontier Danceland, our partnership continued with M1 Dancing on the Frontier Appreciation Series which introduces contemporary dance to students from secondary schools and tertiary institutions, as well as the M1-Frontier Danceland PULSE scholarship programme for aspiring and talented dancers.

OUR COMMUNITY

SPORTS WITH A CAUSE

In creating opportunities for young sporting talents to excel, we continued our support for Netball Singapore's initiatives, such as the M1 Schools Challenge League and the M1 Talent Identification Programme.

2015 was a memorable year for netball. Following the Singapore national team's first-ever South-East Asian (SEA) Games Gold medal win at the 28th SEA Games, we hosted an exclusive meet-and-greet session with the national team players for 100 fans at our Paragon M1 Shop in July 2015.

To promote sporting habits for life, we also partnered Netball Singapore to host the M1 Corporate Netball Challenge (M1CNC) – Singapore's biggest mixed corporate annual netball competition – for the third consecutive year at the Kallang Netball Centre in November 2015. The one-day event saw the participation of 47 teams across a wide spectrum of companies. New Zealand netball legends Ms Irene van Dyk, the most capped international player of all time, and Ms Casey Kopua, the current Captain of the New Zealand national team, Silver Ferns, were specially invited to make an appearance at the M1CNC to meet participants and fans, as well as at various netball clinics in secondary schools to share tips and tricks with young, aspiring netball players.

Another event highlight was the exhibition match between Singapore's Members of Parliament (MPs) comprising Ms Sim Ann, Senior Minister of State, Ministry of Community, Culture and Youth & Ministry of Finance & Deputy Government Whip; Dr Janil Puthucheary, Minister of State, Ministry of Education & Ministry of Communication and Information; Ms Low Yen Ling, Parliamentary Secretary, Ministry of Education & Ministry of Trade and Industry; and Ms Jessica Tan, Member of Parliament, and M1 Senior Management. In appreciation of the MPs' participation, M1 pledged a S\$50,000 donation to the underprivileged children and youths-at-risk causes of our adopted charities.

HELPING HAND TO UNDERPRIVILEGED CHILDREN AND YOUTHS-AT-RISK

The primary focus of M1's fundraising efforts in 2015 remained on the underprivileged children and youths-at-risk causes.

The annual M1 Charity Golf 2015 and M1 Sports Fiesta 2015 Charity Carnival were two key fundraising events successfully staged during the year and passionately supported by our staff and families, business partners and associates, as well as members of the community. More than S\$350,000 was raised for the beneficiaries of our adopted charities, Beyond Social Services, Brahm Centre, Children-at-Risk Empowerment Association, and the M1 Students Support Fund, launched in February 2015. The M1 Students Support Fund, in partnership

with the Ministry of Education, provides supplementary financial aid to underprivileged school-going children from low income families. It is currently extended to financially needy students from ten primary schools, for payment of school-related expenses.

During the year, our staff volunteers from the M1 SunCare Club continued to organise regular outings for the beneficiaries of our adopted charities, including visits to Forest Adventure and the Kallang Ice World. In October 2015, M1 presented TOTEM by Cirque du Soleil and invited 500 children and youths-at-risk from M1's adopted charities to an exclusive performance.

TIES WITH THE COMMUNITY

In July 2015, M1 made a meaningful cash contribution towards the set-up of the Yusof Ishak Professorship in Social Sciences at the National University of Singapore, in support of enhancing cutting edge research and intellectual leadership in the areas of ethnicity, multiculturalism and religious diversity. This worthy cause honours the legacy of Singapore's first President, Mr Yusof Ishak, through being at the forefront of educating future generations and thereby help nurture a cohesive and progressive society of the future, true to the core principles of Singapore's founding fathers.

M1 was especially proud to be the principal partner sponsor of the National Day Parade 2015 – Majulah Singapura, in celebration of Singapore's Golden Jubilee. Held at the historic Padang where Singapore's first National Day Parade took place back in 1966, the highly memorable event drew 26,000 spectators with its heart-warming performances and spectacular displays by 3,500 performers across different generations, as well as a touching tribute to our late founding Prime Minister, Mr Lee Kuan Yew.

In partnership with the Singapore Red Cross Society, we organised two on-site blood donation drives during the year at our main office building. A total of 200 M1 staff and visitors donated, and 145 units of blood were collected for the blood bank, which in turn will benefit over 430 patients.

Sustainability Report

OUR ENVIRONMENT

We strive to conduct our business operations efficiently, to minimise our environmental footprint and make effective use of limited resources. We are committed to adhere with all applicable environmental regulations, and have not been fined or otherwise sanctioned for any environment-related violations in 2015.

ENVIRONMENTAL FOOTPRINT

Energy, generated from both renewable and non-renewable sources, continued to be the main resource consumed in the delivery of our services.

In 2015, M1's mobile networks, offices and data centre operations used 60,854,140kWh of electrical power, 3.8% higher than the year before. This was to support increased business requirements, including the deployment of more than 100 new base station sites and a small cell trial to further enhance coverage and support customers' growing mobile data needs, as well as additional corporate customer demand for our connectivity and data centre solutions.

We also operate three offshore base stations, at Pulau Satumu, Pulau Tekong and St. John's Island. These islands are not connected to Singapore's power grid, and therefore on-site diesel generators are required

to provide power for the base station equipment. In spite of higher voice and data traffic, the three sites used 51,648 litres of diesel fuel in 2015, 25.6% lower than 2014. This decline was primarily driven by the increased power generation from our solar photovoltaic (PV) power system in Pulau Satumu. Installed in August 2014, the solar PV system saw its first full year of operations in 2015.

We maintain a fleet of vehicles for our field engineers to install new mobile equipment and perform drive tests, site maintenance or repairs.

In 2015, fuel consumption for our diesel vehicle fleet was 24,164 litres, 11.6% higher than the year before, and 12,642 litres for our petrol vehicle fleet, 9.3% lower than the year before.

M1's retail operations used an estimated 315,989kWh of electrical power in 2015. This was 6.0% lower compared to 2014, as we completed our M1 Shop renovation programme which included a replacement of the majority of our light fittings to energy-efficient light emitting diode (LED) lights.

In addition to energy, water is used for drinking, cleaning and equipment cooling purposes in our daily operations. In 2015, total water consumption was 61,375m³, 7.3% higher than the year before, as we increased our gross floor area by 17.8%. However, potable water consumption was 54,774m³, 4.3% lower than the year before, due to the introduction of NEWater for cooling purposes in our new data centre. NEWater is reclaimed water for industrial use.

Electricity consumption	2015 (kWh)	2014 (kWh)

ENVIRONMENTAL CONSERVATION

We continually review our business operations to identify ways to help us increase productivity and reduce impact to the environment, and at the same time, deliver consistent quality service to our customers.

EFFICIENT BASE STATION NETWORK

Our base stations network, which enables us to deliver mobile voice and data services to our customers, makes up approximately half of our energy consumption.

We continually review our base station operations to identify ways to reduce energy consumption, including upgrading our base stations with multi-radio units that do not require air conditioning. This has yielded annual power savings of 6,876,600kWh.

With the deployment of solar PV power systems to supplement the use of diesel power generators for our offshore base station sites on Pulau Satumu and St. John's Island, we have reduced the use of diesel over the years. Although the terrain on Pulau Tekong does not permit the installation of solar PV power systems, the overhaul of the base station's generators, which was completed in January 2015, has enhanced their efficiency and reduced annual diesel usage by 17%.

In 2015, we also began deploying small cells in selected high traffic sites including malls, libraries and MRT stations. Small cells enable us to enhance the mobile data experience in a more targeted and energy-efficient manner, compared to using a base station.

EFFICIENT FACILITIES

M1's new 4,214sqm five-storey annex building, sited next to our MiWorld building in Jurong, is fitted with environmentally-friendly features such as LED lights and rainwater harvesting tanks. The building, which has successfully achieved the Building and Construction Authority's Green Mark Gold certification, also utilises reclaimed NEWater and condensate water, instead of potable water for cooling purposes.

A lighting optimisation programme, to replace 6,600 fluorescent light fittings at our buildings in Jurong and Aljunied, with energy-efficient LED lights, was completed in 2014 and yields an estimated power savings of 450,000kWh a year.

EFFICIENT OPERATIONS

The revamp of our M1 Shop retail outlets to enhance productivity and customer experience, as well as minimise our carbon footprint, was completed in 2014. In-shop light fittings were changed to LED where possible, and our migration to a streamlined transaction process using wireless tablets enabled us to cut down on the use of printed brochures, receipts, forms and other non-recyclable materials by 20% annually. M1 has also been using sustainably sourced, environmentally-friendly Forest Stewardship Council (FSC) certified paper for all our printing needs since 2014. An e-billing programme was also launched in 2015 to migrate staff to electronic bills and payment, and this will be extended progressively to customers.

Sustainability Report

OUR ENVIRONMENT

GREEN BUILDINGS M1's new five-storey annex building in Jurong has been fitted with smart green features, including:

- Intelligent façade design and extensive greenery help minimise environmental heat gain within the building. These features, alongside with an enhanced chiller plant system, reduce the energy used for cooling by more than 13% compared to another similar sized building
- Energy efficient light fittings such as LED lights and high frequency electronic ballasts lamps, deliver 30% lower energy usage while ensuring comfortable lighting levels
- Motion activated lighting and elevators with variable voltage and variable frequency motor derived elevators, reduce energy during low occupancy periods such as after office hours
- PUB's Water Efficient Labelling Scheme 3 tick rated water fittings, improves water efficiency
- Use of environmentally-friendly building materials including gypsum board in areas such as car park and toilets

Except as disclosed in this report, no director who held office at the end of the financial year had interests in shares, share options, warrants or debentures of the Company, or of related corporations, either at the beginning of the financial year or at the end of the financial year.

5. SHARE OPTIONS

The Company has 2 employee share option schemes for granting of non-transferable options to employees (including executive director) and non-executive directors of the Company and its subsidiaries.

- (i) M1 Share Option Scheme 2002 (the "2002 Scheme") which was approved by shareholders on 8 November 2002. The 2002 Scheme had expired on 7 November 2012. Options already granted under the 2002 Scheme remain valid and exercisable until the end of the relevant exercise period; and
- (ii) M1 Share Option Scheme 2013 (the "2013 Scheme"), for granting of non-transferable share options to employees (including executive director) and non-executive directors of the Company and its subsidiaries was adopted and approved by shareholders in general meeting on 5 April 2013.

The Remuneration Committee ("Committee") is responsible for administering the 2002 Scheme and 2013 Scheme (collectively, the "Schemes"). The Remuneration Committee members are Mr Moses Lee Kim Poo (Chairman appointed on 1 July 2015), Mr Choo Chiau Beng, Mr Chow Kok Kee, Mr Low Huan Ping and Mr Alan Ow Soon Sian. The majority of the Committee comprises of independent directors, including the Committee Chairman.

Directors' Statement

5. SHARE OPTIONS (CONT'D)

Under the Schemes, options granted have a term of 5 or 10 years from the date of grant for non-executive directors and employees (including executive director) respectively.

The subscription price for each ordinary share in respect of which an option is exercisable shall be determined by the Committee in its absolute discretion, on the date of grant to be either:

- (i) at a price equal to the average of the last dealt prices of the Company's shares on the Singapore Exchange Securities Trading Limited over the five consecutive trading days immediately preceding the date of grant of that option (the "Market Price") or such higher price as may be determined by the Committee; or
- (ii) at a price, which is set at a discount to the Market Price provided that the maximum discount for any option shall not exceed 20% of the Market Price in respect of that option.

Information with respect to the number of options granted under the Schemes is as follows:

Since the commencement of the Schemes, save as disclosed above, no options were granted to directors, no employees have received 5% or more of the total options available under the Schemes and no options have been granted to the controlling shareholders of the Company and their associates.

The 2002 Scheme was approved by shareholders on 8 November 2002. The 2002 Scheme had expired on 7 November 2012. Options already granted under the 2002 Scheme remain valid and exercisable until the end of the relevant exercise period.

The 2013 Scheme was approved by shareholders on 5 April 2013.

6. AUDIT COMMITTEE

The Audit Committee (AC) carried out its functions in accordance with section 201B(5) of the Singapore Companies Act, Chapter 50, including the following:

- Review with external auditor the audit plan including the nature and scope of the audit before commencement, auditor's reports and their management letters and management's response;
- Review significant financial reporting issues and judgements so as to ensure the integrity of the financial statements of the Company and any formal announcements relating to the Company's financial performance. This includes review of quarterly, half-year and annual financial statements before submission to the Board for its approval;
- Review the assistance given by management to external auditor;
- Review the independence and objectivity of the external auditor;
- Review the nature and extent of non-audit services performed by external auditor;
- Examine the scope of internal audit procedures and the results of the internal audit;

Directors' Statement

6. AUDIT COMMITTEE (CONT'D)

- Review the adequacy of the Company's financial, operational, compliance and information technology controls, policies and system established by management (collectively "internal controls") and reporting on any pertinent aspects of risks thereto, and ensure that a review of the effectiveness of the Company's internal controls is conducted at least annually and such a review can be carried out by the internal auditor;
- Meet with the external and internal auditors without the presence of management at least annually;
- Review the effectiveness of the Company's internal audit function and ensure that it is adequately resourced and has appropriate standing within the Company;
- Investigate any matter which falls within the AC's terms of reference, having full access to and co-operation by management and the full discretion to invite any director or executive officer to attend its meetings, and reasonable resources to enable it to discharge its functions properly;
- Review interested person transactions falling within the scope of Chapter 9 of the Listing Manual of the SGX-ST;
- Make recommendation to the Board on the appointment/re-appointment/removal of external auditor, and approve the audit fees and terms of engagement of external auditor; and
- Review arrangement by which staff of the Company may, in confidence, raise concerns about possible improprieties in matters of financial reporting or other matters, so as to ensure that arrangements are in place for the independent investigation of such matters and for appropriate follow-up action.

Further details regarding the AC are disclosed in the Report on Corporate Governance.

Independent Auditor's Report to the members of M1 Limited

For the financial year ended 31 December 2015

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of M1 Limited (the "Company") and its subsidiaries (collectively, the "Group") set out on pages 100 to 146, which comprise the statements of financial position of the Group and the Company as at 31 December 2015, the statements of changes in equity of the Group and the Company, consolidated statement of comprehensive income and consolidated cash flow statement of the Group for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

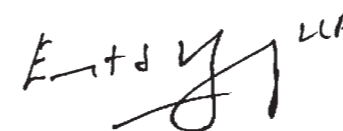

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the financial position of the Group and of the Company as at 31 December 2015 and of the financial performance, changes in equity and cash flows of the Group and the changes in equity of the Company for the year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

Notes to the Financial Statements

For the financial year ended 31 December 2015

1. CORPORATE INFORMATION

M1 Limited (the "Company") is a public limited liability company, which is incorporated and domiciled in the Republic of Singapore and is listed on the Singapore Exchange Securities Trading Limited ("SGX-ST"). Its registered office and principal place of business is at 10 International Business Park, Singapore 609928.

The principal activities of the Company and its subsidiaries (collectively, the "Group") are the provision of telecommunications services, international call services and fixed services, retail sales of telecommunications equipment and accessories, and customer services.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company have been prepared in accordance with Singapore Financial Reporting Standards ("FRS").

The financial statements have been prepared on the historical cost basis except for available-for-sale financial instruments that have been measured at their fair values.

The financial statements are presented in Singapore dollars ("S\$") and all values are rounded to the nearest thousand (S\$'000) except when otherwise indicated.

2.2 Changes in accounting policies

The accounting policies adopted are consistent with those of the previous financial year except in the current financial year, the Group has adopted all the new and revised standards which are effective for annual financial periods beginning on or after 1 January 2015. The adoption of these standards did not have any effect on the financial performance or position of the Group and the Company.

Notes to the Financial Statements

For the financial year ended 31 December 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.3 Standards issued but not yet effective

The Group has not adopted the following standards that have been issued but not yet effective:

Description	Effective for annual periods beginning on or after
FRS 114 <i>Regulatory Deferral Accounts</i>	1 January 2016
Amendments to FRS 16 and FRS 41 <i>Agriculture - Bearer Plants</i>	1 January 2016
Amendments to FRS 27 <i>Equity Method in Separate Financial Statements</i>	1 January 2016
Amendments to FRS 16 and FRS 38 <i>Clarification of Acceptable Methods of Depreciation and Amortisation</i>	1 January 2016
Amendments to FRS 111 <i>Accounting for Acquisitions of Interests in Joint Operations</i>	1 January 2016
Improvements to FRSs (November 2014)	
(a) Amendments to FRS 105 <i>Non-current Assets Held for Sale and Discontinued Operations</i>	1 January 2016
(b) Amendments to FRS 107 <i>Financial Instruments: Disclosures</i>	1 January 2016
(c) Amendment to FRS 19 <i>Employee Benefits</i>	1 January 2016
(d) Amendment to FRS 34 <i>Interim Financial Reporting</i>	1 January 2016
Amendments to FRS 1 <i>Disclosure Initiative</i>	1 January 2016
Amendments to FRS 110, FRS 112 and FRS 28 <i>Investment Entities: Applying the Consolidation Exception</i>	1 January 2016
FRS 115 <i>Revenue from Contracts with Customers</i>	1 January 2018
FRS 109 <i>Financial Instruments</i>	1 January 2018
Amendments to FRS 110 and FRS 28 <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	To be determined

Except for FRS 115 Revenue from Contracts with Customers and FRS 109 Financial Instruments, the directors expect that the adoption of the other standards and interpretations above will have no impact on the financial statements in the period of initial application. The nature of the impending changes in accounting policy on adoption of FRS 115 and FRS 109 is described below.

FRS 115 Revenue from Contracts with Customers

FRS 115 Revenue from Contracts with Customers is effective for financial periods beginning on or after 1 January 2018.

FRS 115 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under FRS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in FRS 115 provide a more structured approach to measuring and recognising revenue. The Group is currently assessing the impact of FRS 115.

Notes to the Financial Statements

For the financial year ended 31 December 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.3 Standards issued but not yet effective (cont'd)

FRS 109 Financial Instruments

FRS 109 introduces new requirements for classification and measurement of financial assets, impairment of financial assets and hedge accounting. Financial assets are classified according to their contractual cash flow characteristics and the business model under which they are held. The impairment requirements in FRS109 are based on an expected credit loss model and replace the FRS 39 incurred loss model. Adopting the expected credit losses requirements will require the Group to make changes to its current systems and processes.

FRS 109 is effective for annual periods beginning on or after 1 January 2018 with early application permitted. Retrospective application is required, but comparative information is not compulsory. The Group is currently assessing the impact of FRS 109 and plans to adopt the standard on the required effective date.

2.4 Basis of consolidation

Business combinations from 1 January 2010

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries at the end of the reporting period. The financial statements of the subsidiaries are prepared for the same reporting date as the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised profits and losses resulting from intra-group transactions are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date such control ceases.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- de-recognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost;
- de-recognises the carrying amount of any non-controlling interest;
- de-recognises the cumulative translation differences recorded in equity;
- recognises the fair value of the consideration received;
- recognises the fair value of any investment retained;
- recognises any surplus or deficit in profit or loss;
- re-classifies the Group's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate.

Business combinations are accounted for by applying the acquisition method. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

Notes to the Financial Statements

For the financial year ended 31 December 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.4 Basis of consolidation (cont'd)

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill. The accounting policy for goodwill is set out in Note 2.9(a).

Business combinations before 1 January 2010

In comparison to the above mentioned requirements, the following differences applied:

Business combinations are accounted for by applying the purchase method. Transaction costs directly attributable to the acquisition formed part of the acquisition costs. The non-controlling interest (formerly known as minority interest) was measured at the proportionate share of the acquiree's identifiable net assets.

Contingent consideration was recognised if, and only if, the Group had a present obligation, the economic outflow was more likely than not and a reliable estimate was determinable. Subsequent measurements to the contingent consideration affected goodwill.

2.5 Subsidiaries

A subsidiary is an investee that is controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

In the Company's separate financial statements, investments in subsidiaries are accounted for at cost less any impairment losses.

2.6 Fixed assets

All items of fixed assets are initially recorded at cost. Subsequent to recognition, fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses. The cost of an item of fixed assets is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

The initial cost of fixed assets comprises its purchase price, including import duties and non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Dismantling, removal or restoration costs included as part of the cost if obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the asset. Expenditure incurred after the fixed assets have been put into operation, such as repairs and maintenance and overhaul costs, is normally recognised in profit or loss in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of fixed asset beyond its originally assessed standard of performance, the expenditure is capitalised as an additional cost of fixed assets.

An item of fixed assets is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in profit or loss in the year the asset is derecognised.

Notes to the Financial Statements

For the financial year ended 31 December 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.7 Depreciation

Depreciation of an asset begins when it is available for use and is computed on a straight-line basis over the estimated useful life as follows:

Leasehold buildings	–	10 – 30 years
Networks and related application systems	–	5 – 25 years
Application systems and computers	–	3 – 10 years
Motor vehicles	–	5 years
Furniture, fittings and equipment	–	2 – 7 years

Capital work-in-progress included in fixed assets is not depreciated as these assets are not available for use.

The carrying values of fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of fixed assets.

2.8 Licences and spectrum rights

These comprise expenditure relating to one-time charges paid to acquire spectrum rights and telecommunications licences or access codes. These intangible assets are measured initially at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Licences and spectrum rights are amortised on a straight-line basis over the estimated economic useful life of 6 to 17 years. The amortisation period and the amortisation method are reviewed at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense is recognised in profit or loss through the 'depreciation and amortisation' line item.

2.9 Intangible assets

(a) Goodwill

Goodwill is initially measured at cost. Following initial recognition, goodwill is measured at cost less accumulated impairment losses.

For the purpose of impairment testing, goodwill acquired is allocated, from the acquisition date, to each of the Group's cash-generating units that are expected to benefit from the synergies of the combination.

The cash-generating unit to which goodwill has been allocated is tested for impairment annually and whenever there is an indication that the cash-generating unit may be impaired, by comparing the carrying amount of the cash-generating unit, including the allocated goodwill, with the recoverable amount of the cash-generating unit. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in profit or loss. Impairment losses recognised for goodwill are not reversed in subsequent periods.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.9 Intangible assets (cont'd)

(b) Club membership

Club membership acquired is measured initially at cost less any accumulated impairment losses.

(c) Internet protocol ("IP") address

Internet protocol address acquired is measured initially at cost. Following initial recognition, IP address is measured at cost less accumulated amortisation and any accumulated impairment losses.

IP address is amortised on a straight-line basis over the estimated economic useful life of 15 years. The amortisation period and the amortisation method are reviewed at each financial year-end. The amortisation expense is recognised in profit or loss through 'depreciation and amortisation' line item.

2.10 Investments

Investments are classified as held for trading or available-for-sale. Investments acquired for the purpose of selling in the short term are classified as held for trading. Other investments held by the Group are classified as available-for-sale.

Investments are initially measured at fair value plus transaction costs less any accumulated impairment losses. For unquoted equity investments whose fair value cannot be reliably measured using alternative valuation methods, they are carried at cost less any accumulated impairment losses.

For investments held for trading, gains and losses arising from changes in fair value are included in the statement of comprehensive income.

For available-for-sale investments, gains and losses arising from changes in fair value are recognised directly in other comprehensive income, until the investment is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognised in other comprehensive income is reclassified to the statement of comprehensive income.

The fair value of investments that are traded in active markets is based on quoted market prices at the statement of financial position date. The quoted market price is the current bid prices. The fair value of investments that are not traded in an active market is determined using valuation techniques. Such techniques include using recent arm's length transactions, reference to the underlying net asset value of the investee companies or discounted cash flow analysis.

2.11 Financial assets

Financial assets are recognised on the statement of financial position when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. The Group determines the classification of its financial assets at initial recognition.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

Notes to the Financial Statements

For the financial year ended 31 December 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.11 Financial assets (cont'd)

The subsequent measurement of financial assets depends on their classification as follows:

(a) Trade and other debtors

Trade and other debtors, including amounts due from related parties, are classified and accounted for as loans and receivables under FRS 39.

Included in the trade debtors balance are accrued service revenue and accrued handset revenue.

Accrued service revenue relates to services rendered but not billed to customers. They will be billed at the following bill cycle.

Accrued handset revenue relates to revenue recognised for handsets sold with services. The accounting policy relating to specific recognition criteria for handset revenue and service revenue is disclosed in Note 2.21.

Allowance is made for uncollectible amounts when there is objective evidence that the Group will not be able to collect the debt. Bad debts are written off when identified. Further details on the accounting policy for impairment of financial assets are stated in Note 2.13 below.

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Such assets are initially recognised at fair value, plus directly attributable transaction costs and subsequently carried at amortised cost using the effective interest rate method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

(b) Available-for-sale financial assets

Available-for-sale financial assets include equity and debt securities. Equity investments classified as available-for-sale are those, which are neither classified as held for trading nor designated at fair value through profit or loss.

After initial recognition, available-for-sale financial assets are subsequently measured at fair value. Any gains or losses from changes in fair value of the financial assets are recognised in other comprehensive income, except that impairment losses and foreign exchange gains and losses on monetary instruments are recognised in profit or loss. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment when the financial asset is de-recognised.

(c) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and time deposits that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value. They are carried in the statement of financial position, classified and accounted for under FRS 39.

For purpose of the consolidated cash flow statement, cash and cash equivalents are shown net of outstanding bank overdrafts, if any, which are repayable on demand and which form an integral part of the Group's cash management.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.12 Financial liabilities

Financial liabilities are recognised on the statement of financial position when, and only when, the Group becomes a party to the contractual provisions of the financial instruments. The accounting policies adopted for specific financial liabilities are set out below.

Borrowings

All borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, borrowings are subsequently measured at amortised cost using the effective interest rate method.

Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

Borrowing costs are capitalised as part of the cost of a qualifying asset if they are directly attributable to the acquisition, construction or production of that asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and when the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Trade and other creditors

Liabilities for trade and other creditors, which are normally settled on 30 - 90 days terms, and amounts due to related parties are initially recognised at fair value and subsequently measured at amortised cost using the effective interest rate method.

Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

2.13 Impairment of financial assets

The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired.

Financial assets carried at amortised cost

If there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in profit or loss.

When the asset becomes uncollectible, the carrying amount of impaired financial asset is reduced directly or if an amount was charged to the allowance account, the amounts charged to the allowance account are written off against the carrying value of the financial asset.

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtors and default or significant delay in payments.

Notes to the Financial Statements

For the financial year ended 31 December 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.13 Impairment of financial assets (cont'd)

Financial assets carried at amortised cost (cont'd)

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

Available-for-sale financial assets

In the case of equity investments classified as available-for-sale, objective evidence of impairment include (i) significant financial difficulty of the issuer or obligor, (ii) information about significant changes with an adverse effect that have taken place in the technological, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in equity instrument may not be recovered; and (iii) a significant or prolonged decline in the fair value of the investment below its costs.

If an available-for-sale financial asset is impaired, an amount comprising the difference between its acquisition cost (net of any principal repayment and amortisation) and its current fair value, less any impairment loss previously recognised in profit or loss, is transferred from other comprehensive income and recognised in profit or loss. Reversals of impairment losses in respect of equity instruments are not recognised in profit or loss; increase in their fair value after impairment are recognised directly in other comprehensive income.

2.14 Derecognition of financial assets and liabilities

(a) *Financial assets*

A financial asset is derecognised where the contractual rights to receive cash flows from the asset have expired which usually coincides with receipt of payments for the asset. On derecognition, the difference between the carrying amount and the sum of the consideration received is recognised in profit or loss.

(b) *Financial liabilities*

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. For financial liabilities other than derivatives, gains and losses are recognised in profit or loss when the liabilities are derecognised or impaired, and through the amortisation process.

Notes to the Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.15 Inventories

Inventories are valued at the lower of cost and net realisable value.

Cost incurred in bringing the inventories to their present location and condition is accounted for on weighted average basis.

Where necessary, allowance is provided for damaged, obsolete and slow moving items to adjust the carrying value of inventories to the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the normal course of business, less estimated costs necessary to make the sale.

2.16 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at each statement of financial position date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as finance costs.

2.17 Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grants will be received and all attaching conditions will be complied with.

Government grants shall be recognised in profit or loss on a systematic basis over the periods in which the entity recognises as expenses the related costs for which the grants are intended to compensate.

Notes to the Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.18 Employee benefits

(a) Defined contribution plan

The Group makes contributions to the Central Provident Fund ("CPF") scheme in Singapore, a defined contribution pension scheme. These contributions are recognised as an expense in the period in which the related service is performed.

(b) Employee share option plan

Employees (including the executive director) and non-executive directors of the Group may receive remuneration in the form of share-based payment transactions. Employees render services as consideration for share options ('equity-settled transactions').

The cost of equity-settled transactions with employees is measured by reference to the fair value of the options at the date on which the share options are granted. In valuing the share option, no account is taken of any performance conditions, other than conditions linked to the price of shares of the Company ('market condition'), if applicable.

The cost of equity-settled transactions is amortised and recognised in profit or loss on a straight-line basis over the vesting period, with a corresponding increase in share option reserve. The cumulative expense recognised at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of options that will ultimately vest. The movement in cumulative expenses recognised at the beginning and end of a reporting period is charged or credited to profit or loss with a corresponding adjustment to share option reserve.

No expense is recognised for options that do not ultimately vest, except for options where vesting is conditional upon a market condition, which are treated as vested irrespective of whether or not the market condition is satisfied, provided that all other performance conditions are satisfied. In the case where the option does not vest as the result of a failure to meet a non-vesting condition that is within the control of the Group or the employee, it is accounted for as a cancellation. In such case, the amount of the compensation cost that otherwise would be recognised over the remainder of the vesting period is recognised immediately in profit or loss upon cancellation. The share option reserve is transferred to retained profits upon expiry of the share option.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.19 Taxes

(a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the statement of financial position date.

(b) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences, except:

- Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carry-forward of unused tax credits and unused tax losses can be utilised except:

- Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investments in subsidiaries, deferred income tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each statement of financial position date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the statement of financial position date.

Deferred income tax relating to items recognised directly in equity is recognised in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Notes to the Financial Statements

For the financial year ended 31 December 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.19 Taxes (cont'd)

(c) Goods and services tax

Revenue, expenses and assets are recognised net of the amount of goods and services tax except:

- Where the goods and services tax incurred in a purchase of goods and services is not recoverable from the taxation authority, in which case the goods and services tax is recognised as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of goods and services tax included.

The net amount of goods and services tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

2.20 Impairment of non-financial assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If such an indication exists, the asset's recoverable amount is estimated. The recoverable amount is the higher of an asset's or cash generating unit's fair value less cost to sell and value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset up to the end of its useful life. An impairment loss is recognised in profit or loss whenever the carrying value of an asset exceeds its recoverable amount.

Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the asset no longer exist or have decreased. The reversal is recorded in profit or loss. However, the increased carrying amount of an asset due to a reversal of an impairment loss is recognised to the extent it does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for that asset in prior years. After such reversal, the depreciation charge is adjusted in future periods to allocate the assets revised carrying amount less any residual value, on a systematic basis over its remaining useful life.

2.21 Revenue recognition

Revenue of the Group comprises fees earned from telecommunications, international call services and fixed services rendered and sale of handsets.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The following specific recognition criteria must also be met before revenue is recognised:

- Service revenue is recognised at the time when such services are rendered. Revenue billed in advance of the rendering of services is deferred on the statement of financial position as unearned revenue.
- Revenue from sale of prepaid cards but for which services have not been rendered is deferred on the statement of financial position as unearned revenue. Upon termination of the prepaid cards, any unutilised value of the prepaid cards will be taken to profit or loss.

Notes to the Financial Statements

For the financial year ended 31 December 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.21 Revenue recognition (cont'd)

- Revenue from sale of handset is recognised upon the passing of risk and rewards of ownership of the handset to the customer which generally coincides with delivery and acceptance of the handsets sold.
- Revenue on award credits are recognised based on the number of award credits that have been redeemed in exchange for free or discounted goods and services, relative to the total numbers of awards credit expected to be redeemed.
- Interest income is recognised using the effective interest rate method.

2.22 Customer acquisition costs

Customer acquisition costs are accounted for in profit or loss when incurred.

2.23 Operating leases

Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis.

2.24 Foreign currency

The Group's consolidated financial statements are presented in Singapore dollars, which is also the Company and subsidiary companies' functional currencies.

Transactions in foreign currencies are measured in the respective functional currencies of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the closing rate of exchange ruling at the statement of financial position date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the statement of financial position date are recognised in profit or loss.

2.25 Segment reporting

The Company and its subsidiaries operate in Singapore in one business segment, that of provision of telecommunications services, international call services and fixed services, retail sales of telecommunications equipment and accessories, and customer services.

2.26 Share capital and share issuance expenses

Proceeds from issuance of ordinary shares are recognised as share capital in equity.

Notes to the Financial Statements

For the financial year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period are discussed below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group.

- *Useful lives of network and related application systems*

The cost of network and related application systems is depreciated on a straight-line basis over the assets' estimated economic useful lives. Management estimates the useful lives of these fixed assets to be within 5 to 25 years. These are common life expectancies applied in the telecommunications industry. Changes in the expected level of usage and technological developments could impact the economic useful life and the residual values of these assets, therefore, future depreciation charges could be revised. The carrying amounts of the Group's and Company's network and related application systems at the statement of financial position date are disclosed in Note 11 to the financial statements.

- *Impairment of non-financial assets*

The Group assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. Goodwill is tested for impairment at least on an annual basis.

When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows. Further details of the key assumptions applied in the impairment assessment of goodwill are given in Note 13 to the financial statements.

Notes to the Financial Statements

For the financial year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONT'D)

Key sources of estimation uncertainty (cont'd)

• Impairment of loans and receivables

The Group and the Company assess at each statement of financial position date whether there is any objective evidence that a financial asset is impaired. To determine whether there is objective evidence of impairment, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. Actual results may differ from management's estimates. The carrying amounts of the Group's and the Company's loans and receivables at the statement of financial position date are disclosed in Note 30 to the financial statements.

• Income taxes

The Group and the Company recognise liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax provisions in the period in which such determination is made. The carrying amount of the Group's income tax payable and deferred tax liabilities at 31 December 2015 were S\$36,827,000 (2014: S\$38,705,000) and S\$110,928,000 (2014: S\$108,742,000) respectively. The carrying amount of the Company's income tax payable and deferred tax liabilities at 31 December 2015 were S\$33,443,000 (2014: S\$38,156,000) and S\$111,393,000 (2014: S\$108,708,000) respectively.

9. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the net profit for the year attributable to owners of the Company by the weighted average number of ordinary shares on issue during the financial year.

Diluted earnings per share is calculated by dividing the net profit for the year attributable to owners of the Company by the weighted average number of ordinary shares on issue during the financial year (adjusted for effects of dilutive share options).

The following reflects the earnings and share data used in the computation of basic and diluted earnings per share for the financial years ended 31 December:

	Group	
	2015 S\$'000	2014 S\$'000
Net profit attributable to owners of the Company for basic and diluted earnings per share	178,482	175,778
	No. of shares 2015 '000	No. of shares 2014 '000
Weighted average of ordinary shares on issue applicable for basic earnings per share computation	935,984	928,737
Effect of dilution: Share options	2,039	5,756
Adjusted weighted average of ordinary shares on issue applicable for diluted earnings per share computation	938,023	934,493

10. EARNINGS BEFORE INTEREST, TAX, DEPRECIATION AND AMORTISATION ("EBITDA")

EBITDA is derived as follows:

	Group	
	2015 S\$'000	2014 S\$'000
Profit before tax	218,420	217,074

Impairment testing of goodwill

The Group's subsidiary, M1 Net Ltd. ("M1 Net") previously, acquired a 100% equity interest in M1 Connect Pte. Ltd. ("M1 Connect").

Management has allocated the goodwill to M1 Net and M1 Connect as a single cash-generating unit (CGU) for impairment testing. The recoverable amount of the CGU has been determined based on value in use calculations using cash flow projections covering a five-year period. The discount rate applied to the cash flow projections and terminal growth rate used to extrapolate cash flow projections beyond the five-year period are 8% (2014: 8%) and nil (2014: nil) respectively.

The calculation of value in use for the CGU is most sensitive to the following assumptions:

Terminal growth rate – The terminal growth rate used does not exceed the long term average growth rate of the industry and country in which the CGU operates.

Discount rate applied should reflect the current market assessment of the risks specific to the CGU.

No impairment loss (2014: nil) was recognised in profit or loss.

A reasonable change to the assumptions used by the management to determine the impairment required, particularly the discount rate and terminal growth rate, would not significantly affect the results.

The above options will vest over a period of three years from the date of grant and may be exercisable for a period commencing after the first anniversary of the date of grant and expiring on the 10th anniversary of the date of grant.

The weighted average fair value of options granted during the financial year was S\$0.250 (2014: S\$0.183).

The weighted average share price at the date of exercise of the options during the financial year was S\$3.64 (2014: S\$3.31).

The weighted average remaining contractual life for options outstanding at the end of the financial year is 7.4 years (2014: 7.4 years).

Notes to the Financial Statements

For the financial year ended 31 December 2015

27. SHARE OPTIONS (CONT'D)

Information on a director of the Company participating in the Schemes is as follows:

Name of director	Options granted during financial year	Aggregate options granted since commencement of Schemes to end of financial year	Aggregate options exercised since commencement of Schemes to end of financial year	Aggregate options outstanding at end of financial year	Subscription price
Karen Kooi Lee Wah	800,000	9,315,000	4,899,300	4,415,700	S\$1.25 - S\$3.64

The fair value of the share options as at the date of grant is computed using the Black-Scholes model, taking into account the terms and conditions upon which the options were granted. The inputs to the model for all grants not vested for the years ended 31 December 2015 and 31 December 2014 are shown below:

Date of grant	22-Jan-15	23-Jan-14	2-May-13	30-Jan-12	7-Feb-11	15-Jun-10
Dividend Yield (%)	5.07	6.09	4.32	5.88	7.14	6.31
Expected Volatility (%)	17.00	17.00	16.00	27.00	28.00	29.00
Risk-free interest rate (%)	0.71	0.33	0.33	0.30	1.03	0.55
Expected life of option (years)	3.10	3.10	3.10	3.10	3.10	3.10
Share price (S\$)	3.73	3.45	3.38	2.43	2.45	2.13
Exercise price (S\$)	3.64	3.31	3.24	2.43	2.44	2.12

The expected life of the option is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of the option were incorporated into the measurement of fair value.

The 2002 Scheme was approved by shareholders on 8 November 2002. The 2002 Scheme expired on 7 November 2012. Options already granted under the 2002 Scheme remain valid and exercisable until the end of the relevant exercise period.

The 2013 Scheme was approved by shareholders on 5 April 2013.

28. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group and the Company are exposed to financial risks arising from operations and the use of financial instruments. The key financial risks include interest rate risk, foreign currency risk, credit risk and liquidity risk. The Group's risk management strategy aims to minimise the adverse effects of financial risk on the financial performance of the Group. There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risks.

Notes to the Financial Statements

For the financial year ended 31 December 2015

28. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates. The Group's and the Company's exposure to interest rate risk arises primarily from the Group's long-term debt obligation. The Group's policy is to manage its interest cost using a mix of variable and fixed rate debts.

As at 31 December 2015, the Group's long term borrowing is at fixed rate of interest.

Foreign currency risk

The Group's revenue and expenditure are primarily transacted in Singapore dollars. The currency exposures are mainly limited to Special Drawing Rights ("SDR"). SDR is an international reserve asset created by International Monetary Fund and is valued on the basis of a basket of key national currencies.

The Group and the Company also hold cash and cash equivalents denominated in foreign currencies for working capital purposes. At the statement of financial position date, such foreign currency balances (mainly in USD and Euro) amount to S\$6,929,296 (31 December 2014: S\$7,294,000) for both the Group and the Company.

The Group is also exposed to currency translation risk arising from its long term investments denominated in USD.

Whenever possible, foreign currency transactions are matched to minimise the exposure. The exchange rates are continually monitored and forward contracts are used when appropriate to hedge against exchange rate fluctuations.

As at the statement of financial position date, the Group's foreign currency exposures are insignificant.

Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group relies on its internal working capital and bank borrowings to fund most of its operating and investing activities. There are sufficient revolving credit facilities available to meet short term funding requirements.

28. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

Market price risk

Market price risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market prices (other than interest or exchange rates). The Group is exposed to equity price risk arising from its investment in quoted funds. These quoted funds are classified as available-for-sale financial assets. The Group does not have exposure to commodity price risk.

Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's credit risk is mitigated by its combination of cash and credit sales. For credit sales, the Group has no significant concentration of credit risk from trade debtors due to its diverse customer base. Credit risk is managed through credit checks, credit reviews and monitoring procedures that include a formal automated collection process.

The Group's maximum exposure to credit risk in the event the counterparties fail to perform their obligations as of 31 December 2015 in relation to each class of recognised financial assets, is the carrying amount of those assets as indicated in the statement of financial position.

Financial assets that are neither past due nor impaired

Trade and other receivables that are neither past due nor impaired are with creditworthy debtors with good payment record with the Group. Cash and short-term deposits, that are neither past due nor impaired are placed with or entered into with reputable financial institutions with high credit ratings and no history of default.

Financial assets that are either past due or impaired

Information regarding financial assets that are either past due or impaired is disclosed in Note 19.

29. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of a financial instrument is the amount at which the instrument could be exchanged or settled between knowledgeable and willing parties in an arm's length transaction, other than in forced or liquidation sale.

Fair value hierarchy

The Group classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy have the following levels:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices), and
- Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

29. FAIR VALUE OF FINANCIAL INSTRUMENTS (CONT'D)

Assets and liabilities measured at fair value

The following table shows an analysis of each class of assets and liabilities measured at fair value at the end of the reporting period:

	Group	
	2015	2014
	Significant unobservable inputs Level 3	
	S\$'000	S\$'000
Financial assets:		
Available-for-sale financial assets (Note 17)		
- Unquoted equity	6,353	-
- Unquoted investment fund	2,118	-
	8,471	-

Determination of fair value

Level 3 fair value measurements

Unquoted equity instruments are valued based on the net asset value per share as reported by the managers of these funds, less impairment.

Financial instruments whose carrying amount approximate fair value

Management has determined that the carrying amounts of current trade debtors, other debtors, due from related parties, cash and cash equivalents, creditors and due to related parties, based on their notional amounts, are reasonable approximation of fair values either due to their short-term nature or they are floating rate instruments that are re-priced to market rates on or near the statement of financial position date.

Financial instrument by classes that is not carried at fair value and whose carrying amount is not reasonable approximation of fair value

The fair value of financial liability by classes that is not carried at fair value and whose carrying amount is not reasonable approximation of fair value is as follows:

	Group				Company			
	2015		2014		2015		2014	
	Carrying amount	Fair value	Carrying amount	Fair value	Carrying amount	Fair value	Carrying amount	Fair value
	S\$'000	S\$'000	S\$'000	S\$'000	S\$'000	S\$'000	S\$'000	S\$'000
Financial liability:

The fair value is determined using market observable inputs such as interest forward rates (Level 2 of the fair value hierarchy).

31. CAPITAL MANAGEMENT

The objective of the Group's capital management policy is to provide capital to support business requirements and to take advantage of business opportunities that might arise, so as to enhance shareholder value. With prudent capital management, the Group aims to maintain a sustainable dividend payout ratio.

The capital structure of the Group consists of net debts (borrowings less cash and cash equivalents) and equity attributable to the owners of the Group and the Company.

There was no change in the Group's approach to capital management during the year.
